HOW LEADING CIGARETTES COMPARE FINDINGS OF DISTINGUISHED DOCTORS

Full reports by men high in the profession, of their findings in clinical and laboratory work ... as published by authoritative medical journals; sent regularly on request to physicians

MANY thousands of America's physicians already possess this series of reprints. They are the reports of distinguished medical men—covering not one, but many researches both clinical and laboratory.

They are now and always available to any physician upon request.

This is authoritative, strictly scientific reference material on the leading brands of cigarettes smoked by the American public.

FOR THE PUBLIC—

Laboratory findings may be summed up—for the public—in this statement:

On comparison, the four other leading

cigarettes averaged more than three times as irritant—with irritant effects lasting more than five times as long—as the strikingly contrasted Philip Morris.

The series of separate and independent clinical findings may be summarized thus:

When smokers changed to Philip Morris, every case of irritation of nose or throat, due to smoking, either cleared up completely, or definitely improved.

It is upon this basis of scientifically proved superiority for the nose and throat that we advise smokers to...
