

Russians Hint Of New Action

MOSCOW, May 1.—(P)—Soviet Russia's official government newspaper Ivestia said Friday that the coming month will see the beginning of an intensive summer land campaign which may well decide the outcome of the war.

"Not many days separate us from big events," the newspaper asserted editorially. "This may mean we are at the threshold of a decisive stage of our sacred war of liberation."

The pronouncement came as a violent air war mounted all along the front.

Ivestia's editorial recalled that the Russian winter campaign had restored 480,000 square kilometers (185,328 square miles) to Russian control.

The press generally sounded a prophetic note that tremendous events were in the making and a significant air of expectancy prevailed Moscow.

(The German high command reported that the Russians attacked strongly again yesterday on the eastern line of the Germans' Kuban defenses in the Caucasus, but were repulsed despite strong tank and artillery support. German pilots were credited with 67 Soviet planes.

(Transocean reported from Berlin that the Russians opened the Kuban offensive Wednesday with ten infantry divisions of 150,000 troops, strongly supported by tanks and planes, and that the Soviets had numerical superiority.)

power of the government to carry on the war.

He also reiterated that continuance and spread of the strikes would have the same effect as a crippling defeat in the war, and promised that whenever the miners submit their case to the WLB "it will be determined promptly, fairly and in accordance with the procedure and law applicable to all labor disputes."

After declaring he had ordered government seizure and operation of the mines, the president said: "I now call upon all miners who may have abandoned their work to return immediately to the mines and work for their government. Their country needs their services as much as those of the members of the armed forces. I am confident that they do not wish to retard the war effort; that they are as patriotic as any other Americans; and that they will promptly answer this call to perform this essential war service."

"If any adjustment of wages is made it will be made retroactive," he added.

The executive order for federal seizure of the mines declared the strikes "will obstruct the effective prosecution of the war by curtailing vitally needed production in the coal mines directly affecting the countless war industries and transportation systems" dependent upon such mines.
