

### Seats on Sale Soon For Campus Concert

By BILL BUELL  
Reserve seat tickets for 'cellist Gregor Piatigorsky's Eugene concert will go on sale at Miller's Saturday, January 15, according to Horace Robinson, educational activities manager of the University of Oregon. The renowned Russian-born virtuoso will perform in McArthur court on Wednesday, January 19.

don't want people to applaud me; I want them to fall in love with the 'cello. I suppose the 'cello is my favorite instrument because it reminds me more than anything else of the human voice." As a 'cello propagandist Piatigorsky is a decided success. "Piatigorsky's playing has helped to bring something close to a renaissance in 'cello playing," according to the music editor of "Newsweek" magazine. "He has spurred wide public interest in an instrument which, long extolled for its virtues in ensemble work, has been rather grudgingly acknowledged as a first-rank solo vehicle."

### High Officials Here For Carmen Event

With General Chairman George H. M. Webster, San Francisco, present as installing officer, accompanied by other officials of the union's organization covering the Southern Pacific system and affiliated lines, the Brotherhood of Railway Carmen of America, Eugene local 149, will install officers and consider important matters at the labor temple Monday evening at 8, it was announced Thursday by Robert J. Martens, union official.

Special business of importance not only to the local union but to the entire coast organization will come before the meeting, Martens said.

Besides Webster, the meeting will be attended by Vice-Chairman E. J. Cound, Los Angeles, and two board members: C. M. McNamara, Tiburo, Calif., and L. C. Giles, El Paso, Tex.

Officers to be installed for the coming year include: President John P. Wray; vice-president, Harry R. Havercroft; recording secretary, J. D. Lambert; financial secretary, O. M. Anderson, treasurer, Walter J. Geiger; board of trustees: Chairman, John L. Smith; vice-chairman, H. A. Moore; secretary, Ray Armstrong; local protective board (shop committee)—Chairman, R. J. Martens; vice-chairman, John P. Wray; secretary, Robert L. Cooper; Guide, Herman R. Bires; warden, John L. Smith; sentinel, Harry B. Ford; chaplain and local director of education, E. R. Passwaters.

Toscanini himself started his career as a 'cellist, but as the 'cello's true worth as a solo instrument was not recognized at that time the Italian musician turned to conducting.

Pitigorsky once said: "I hope and believe the time will come when many people will study and play the 'cello, when composers will devote more of their attention to its repertoire, when all the world will love to hear it. When that time comes I shall be very happy."

That time, if not already here, is rapidly approaching. And Piatigorsky is largely responsible.

### ODT Warns Truckers On Speed, Loading

At the ODT meeting Wednesday evening in the county courtroom truckers of the district were called upon by Ed Dagner and Ben Heiss from the Portland office of defense transportation to cut down their speed and to refrain from overloading. Truck parts and tire supplies for the future are not promising, they warned, and truckers must learn to get along with what they have.

However the ODT officials stated that there is a maldistribution of available truck parts throughout the country and that it is the job of the ODT to find these and place them where needed.

They advised any trucker in dire need of a part to contact the Portland office giving the make of their truck, year, model, motor and serial numbers, together with the catalogue number of the part and the catalogue number of the part needed. With this information the ODT will try to locate the necessary article in other districts of the state.

Both ODT men stated that their office was sympathetic with real needs of truckers who were abiding by wartime regulations and restrictions.

## If Your Eyes Could Only Talk...

**They Would Probably Tell You A Lot of Things You Never Thought of Before**

*For Example:*

That the human eye was developed for seeing most of the time at a distance; but modern man uses his eyes mostly for close, difficult seeing tasks.

Eye strain is more than muscle strain—it is also nerve strain—and if not corrected, can cause numerous, apparently unrelated difficulties.

That headaches are reduced fifty per cent, on the average, when visual defects are corrected and the body relieved of its struggle to offset eyestrain.

That the older you become, the greater the possibility of your needing glasses becomes—indicating the need for more regular examination.

That the only way you can be sure your eyes are continuing to serve with the efficiency nature intended is to have a complete examination regularly.
