West Supplies Half Of Federal Lumber

SEATTLE, July 13 — (AP) — Approximately one-half the lumber the Government's central procuring agency bought the first six months this year came from west coast mills.

The West Coast Lumbermen's association, disclosing this fact in the monthly report, said production virtually reached in June the amount in April, before the walkouts, and is now neck-and-neck with last year's figure at this time.

"The lumber industry is now so deep in war requirements that it has little time or thought for post-war prospects," the association said. "However, demands are already taking shape for large post-war reconstruction programs overseas, indicating that the end of the war will mean very little change in calls on west coast production."

Average weekly production in June was 163,734,000 board feet, or 103.6 per cent of 1940-43 average, compared with the May weekly average of 140,796,000 feet. June orders averaged 163,623,000 board feet weekly and shipments 162,143,000 feet. The comparable May figures were: Orders, 138,251,000 feet; shipments, 148,334,000 feet.
 The unfilled order file stood at 1,056,838,000 feet at the end of June and gross stocks were 440,337,000 feet.

Assessment Ratios Cut By 24 Counties

SALEM — (AP) — Twenty-four Oregon counties have lower ratios of assessed value to true cash value this year than last, while the other 12 counties have unchanged ratios, the state tax commission announced.

Deschutes, Klamath and Malheur counties, each with 41 per cent ratios, are lowest, while Jefferson's 72 per cent is high. Coos county reduced its ratio from 81 to 57 per cent, the largest reduction.

Ratios for each county follow, the first figure in each case being the 1943 ratio, and the second being the 1944 figure:

- Baker 62, 60; Benton, 50, 50;

Airline Plans Peacetime Uses Of Jap Islands

HONOLULU — (AP) — Hawaii Airlines, planning a vast Pacific air service which would translate "island-hopping" from military to commercial and transport jargon, will apply to the civil aeronautics board for permission to establish passenger, freight and mail services to Tokyo and Shanghai, Stanley Kennedy, president of the company, has announced.

The plan calls for use of Japan's battle-scarred Pacific mandates and the occupied Philippines as bases for two routes which would be coordinated with Honolulu-San Francisco-Los Angeles shuttle runs for which the company already has an application pending.

The projected northern route extending from Honolulu through Midway to Tokyo and Shanghai covers a distance of 4959 miles. The second and southern route would extend from Honolulu through Wake and captured Salpan to Manila and the China coast. The return trip from Manila would include short hops to Palau, Truk and Ponape, in the Carolines, and Kwajalein or Eniwetok in the Marshalls.
