The River Road Women's club is completing its project of painting the clubhouse this week.

How science makes possible a younger face and throat

For a more youthful, more lovely face and throat, try ENDOCREME, the 7-year-tested scientific face cream. With most women, between 21 and 70, it achieves results heretofore thought impossible. This is because ENDOCREME helps improve the skin itself, not merely its outward appearance. The reason is ACTIVOL®. Only ENDOCREME contains this laboratory achievement. ACTIVOL®... the scientific counterpart to a natural, skin-vitalizing substance... is actually absorbed beneath the skin's surface, there to work its many benefits. The skin tends to become fresher, firmer, smoother, softer, radiant with more youthful charm. ENDOCREME today is bestowing its blessing upon thousands. Why don't you try it! How better can you invest your cosmetic dollars? Many report exceptional improvement in only 30 days.
