Your car needs protection against these 3 HIDDEN DANGERS!

- 1. Worn Steering:** are you sure that unsuspected wear is not affecting steering control and tire life?
- 2. Risky Brakes:** are linings worn so thin they may not hold properly on a sudden stop?
- 3. Sludge:** is this gummy deposit, result of wartime driving conditions, strangling your engine?

Virtually every car on the road today is over three years old! That means you are facing a new wartime need—the need for guarding your car against old age and today's driving conditions. It's wise to take care of your car—for new cars will be scarce for a long, long time.

Even when car assembly lines start up again, most of us will have to wait a lot longer than we think before "trade in" time comes around again!

See Your Packard Dealer for a "Car Health" Check

Service departments are lively places these days, going strong to keep the nation's transportation rolling. Your Packard dealer is busy, but he wants to help you. Don't wait until you need major repairs. Make an appointment now for a protective check-up. Get those little troubles fixed before they grow up into big ones. That's the way to save time, money, tires and gas!

Ask the man who owns one . . . Streamlined beauty at its best, and the Packard Clipper has lived up to its good looks! A wartime car-owner survey, nation-wide, reports that Packard cars have stood up better—required less frequent service—and Packard owners have spent less on service.
