

Superfortresses Bomb Three Enemy Manufacturing Centers

Associated Press
Waves of American superfortresses smashed at three enemy Japanese industrial centers today in their first big raid since the war. The attack was directed at the first big industrial area in Japan while Tokyo radio reported that the U. S. transport moved south of invasion-threatened Ison Island in the Philippines.

Japanese dispatches said 20 B29s made today's attack on Japan. The main force hit the repeatedly bombed aircraft city of Nagoya while other units struck at the flanking cities of Osaka and Hamamatsu.

All are industrial cities on the south central coast of Honshu, main island of Japan which the U. S. war department earlier announced was the objective of raiders from the 21st bomber command base at Saipan.

Tokyo claimed that 17 Superfortresses were shot down and 25 damaged. The enemy communiqué claimed three were brought down by suicide interceptors but at the same time said only two fighters had failed to return.

The communiqué admitted "some damages were inflicted in the Nagoya and Hamamatsu areas by enemy incendiary bombs," an unusual concession from imperial headquarters.

Philippines-based Liberators opened 1945 with a smashing New Year's day strike at Manila's Clark field. Returning pilots said escorting Lightning took care of every enemy interceptor.

Air patrols sweeping waters hundreds of miles north of the Philippines brought Formosa into General MacArthur's communiqué for the first time. They shot down four Japanese planes and left five coastal vessels in flames.

Every part of the Japanese empire is now within reach of American bombers. Most sections can be hit by Liberators, leaving B29s to concentrate on Japan and the nearby industrialized section of the continent.

Land action followed its recent pattern—778 more Japanese killed in the Leyte island death-trap, and sweeping British advances in Burma.

Jungle troops of the British 14th army moved unopposed into Yeu, 70 air miles northwest of Mandalay. Three highways fan out to the south and east from Yeu. The city is on the west flank of the Myitkyna-Mandalay-Rangoon railway, down which other British units are advancing.

Guard General Olson May See More Action
SALEM, Jan. 3.—(U.P.)—Raymond F. Olson, acting adjutant general of the Oregon State guard, who is a brigadier general in the guard and an inactive lieutenant colonel in the U. S. army, may return to active duty in the army, after a physical examination today.

He was placed on the inactive list due to his health, which was damaged while overseas. He is taking the physical examination this week at McChord General hospital.

Quake Timetable Given By Calculator

By ALEX JANUSITIS
United Press Staff Correspondent
VANCOUVER, B. C., Jan. 3.—(U.P.)—According to the planets, and Canada's foremost earthquake predictor, Edgar C. Thrupp, the year 1945 will produce only one major earthquake—and that won't be until between Dec. 10 and Dec. 20—from 4 p.m. to midnight.

Thrupp whose quake forecasts have proven uncannily accurate in the past 10 years, emerged from a pile of computations and calculations today with the following earthquake timetable for this year:

Feb. 1 to March 8—Minor quake, between 3 and 11 p.m.
March 9 to April 5—Medium, between 2 and 8 p.m.
April 6 to June 1—Minor, 3 to 10 p.m.

Aug. 10 to Sept. 15—Minor, 8 p.m. to 4 a.m.
Oct. 15 to Nov. 10—Minor, 4 to 11 p.m.

Nov. 11 to Dec. 9—Medium, 4 p.m. to midnight.
Dec. 10 to Dec. 20—Medium, 4 p.m. to midnight.
Dec. 21 to Dec. 31—Medium, 6 p.m. to 2 a.m.

And Thrupp suggested you take that table inside your derby, because while he was sure there would be quakes in those specified times—he was not sure where they would strike.

The forecaster who first won his reputation by claiming knowledge of several disastrous South American quakes, said his system was simple. He explained his 1945 forecast this way:

Basing his calculations on "a careful study of the earth's crust, and the stress and strain placed on that crumbling mass by planetary gravity," Thrupp avowed that "the year 1945 has features tending to minimize the forces producing earthquakes."

"Jupiter will reach the aphelion in December," he said. "Venus and Mars are not in cooperation with Jupiter, as well. Saturn, although near is perilous, is nearly 90 degrees out of phase with Jupiter. Consequently there are long periods without risk or even minor quakes, and only one brief period producing risk of a major quake."

\$7,444,000,000 Cost Of War To U. S. In '44
WASHINGTON.—(U.P.)—The government spent \$7,444,000,000 a month directly on the war in 1944.

December war spending was above this average—\$7,503,000,000—the final treasury statement of the year shows.

Total 1944 war spending of \$89,328,000,000 compares with \$81,760,000,000 in 1943. Both totals omit war spending of the reconstruction finance corporation, which was more than three billion dollars in 1943 and about half that in 1944.

Net treasury receipts totaled \$44,421,000,000 and total expenditures, (not counting those of government corporations) \$97,158,000,000. This caused a deficit of \$52,737,000,000.

Receipts in 1943 were \$34,552,000,000 and total expenditures \$88,084,000,000. The deficit was \$53,532,000,000.

December receipts were less than those for the same month a year ago; because the personal income tax payment date was postponed from December 15 to January 15. Last month's income was \$5,416,000,000, compared with \$5,736,000,000 in December, 1943.

Secretary Wickard Will Address Farmers
CORVALLIS, (U.P.)—Secretary of Agriculture Claude Wickard will address the annual meeting of the Oregon Farmers' union at Oregon State college in February, it was announced here.

The meeting will be from Feb. 20 to 23, but the exact date of Wickard's appearance was not announced by H. D. Ralph, who is assisting President Ammon Grice, Salem, in making arrangements.

ARE YOU MARRIED TO MRS. "GLUM" OR MRS. "GAY"?
Low-Spirited Moods And Fatigue Are Often Symptoms Of Constipation!

For constipation take Nature's Remedy (NR Tablets). Contains no chemicals, no minerals, no phenol derivatives. NR Tablets are different—act different. Fully vegetable—a combination of 10 vegetable ingredients formulated over 50 years ago. Uncoated or candy coated, their action is dependable, thorough, yet gentle. Get a 25¢ Convincer Box. Caution: Take only as directed.

WEARY FEET PERK UP WITH ICE-MINT TREAT
When feet burn, calluses sting and every step is torture, don't just groan and do nothing. Rub on a little Ice-Mint. Frosty white, cream-like, its cooling soothing soft helps drive the fire and pain right out. ... tired muscles relax in grateful relief. A world of difference in a few minutes. See how Ice-Mint helps soothe up corns and calluses too. Get foot happy today, the Ice-Mint way. Your druggist has Ice-Mint.

Rail Counsel Asks Dismissal Of Anti-Trust Suit Pending

By MARGUERITE DAVIS
United Press Staff Correspondent
LINCOLN, Neb., Jan. 3.—(U.P.)—Counsel for the Western Association of Railway Executives has filed motions in U. S. district court here to dismiss an anti-trust suit charging 47 railroads and 90 railroad and banking officials with conspiracy to restrain and monopolize transportation throughout the western United States.

The motion challenged the validity of the justice department's suit, filed here in August, on the grounds that a congressional law, passed June 11, 1942, specifically suspended from anti-trust prosecution those industries "wholeheartedly engaged in concerted and cooperative activities requisite to winning the war."

The government complaint charged the association and its members—47 western railroads and their chief executives, The Association of American Railroads, J. P. Morgan and Co., Inc., Kuhn, Loeb and Co. and 31 other individuals with violations of the Sherman anti-trust act in combining to maintain non-competitive rates and suppress development of other forms of transportation throughout the west.

Superstitions About Epilepsy Fought By Organizations
By ALTON L. BLAKESLEE
NEW YORK.—(U.P.)—Epilepsy is about to be freed of the chains of superstition, fear and secrecy by a concerted educational campaign.

The goals are to banish misconceptions, to put epileptics in jobs, free them of false stigma, and to spur research into the cause of this ailment.

The campaign is sponsored by the recently-organized Association to Control Epilepsy, of New York city, and the American Epilepsy league with headquarters at Boston. The public affairs committee is lending its support, publishing a new book, "Epilepsy, the Ghost Out of the Closet," by Herbert Yahraes.

This is the story they are telling: There are 500,000 epileptics in the United States—about one in every 200 persons. Authorities predict that head wounds among soldiers will increase this number.

In World War I, seizures developed among one per cent of soldiers who were merely dazed, among 5½ per cent of those who had concussions; among 18 per cent with penetrating head wounds.

The most harmful misconceptions are that epilepsy denotes insanity and that it is inherited. There is no conclusive evidence that it is inherited, and medical studies of epileptics to be no different in intelligence from any group selected at random. Julius Caesar was an epileptic. So were Lord Byron, Alfred the Great, Swinburne the poet, De Maupassant the author; Van Gogh the painter, Paganini the violinist.

Funeral Rites Planned For Former Warden

PORTLAND, Jan. 3.—(U.P.)—Funeral services will be held tomorrow in Portland for Charles A. Murphy, former warden of the Oregon State penitentiary, who died Tuesday at his Portland home after a year's illness.

Murphy was born in Salem in 1868 and was superintendent of construction for the Eastern Oregon State hospital from 1911 to 1916, then state warden from 1917 to 1919. He helped build numerous schools in the Portland area as a building inspector for reinforced concrete buildings. Until a year ago, he was an inspector for the Portland airbase.

He is survived by three sisters, four nephews and a niece.
