

**Teachers To Debate School Bill**  
 The debate is expected over the controversial House Bill 80 in the representative council of the Oregon State Teachers' Association in Portland March 28 according to the United States Silke, Springfield superintendent, is on a special session to study the measure. The session is a special session in which courses of action in which several current educational issues will be discussed.

**Crippled Children's Clinic Slated for Eugene**  
 A crippled children's clinic will be held March 26-27, between 9:30 a.m. and 4:30 p.m. in the Lane County Health Department, in the courthouse.  
 Dr. C. Elmer Carlson, of the University of Oregon Medical School, will be in charge of the clinic as orthopedic consultant. Details relating to the clinic can be obtained by contacting the health department.

Some Oregon educators have expressed antagonism toward the measure while others favor it. A special committee appointed to study the measure will present its report at the meeting. On the committee are Lynn Gubser, McMinnville, chairman; Eugene Silke, Springfield; Dean Anderson, Portland; Ben Huntington, Bandon, and Oden Hawes, Arlington.

**Solon Reports Flooring Being Sent Abroad**

Despite the fact that lend-lease officially is declared at an end on V-J Day, 18,000,000 board feet of hardwood lumber of the type used as flooring in homes is being shipped abroad because of an agreement that goods being manufactured and in transit would be delivered.

That report came Thursday in Congressman Harris Ellsworth's (R-Ore) weekly letter from Washington.  
 "Believe it or not, we still are shipping vast quantities of goods on lend-lease commitments," he wrote. "The countries receiving lend-lease goods since the actual end of the war have agreed to pay for them over a period of 30 days at an interest rate of two and three-eighths percent on the unpaid balance. This week an attempt was made to reduce the amount of these commitments by \$200,000,000. But on a straight party vote, Republicans voting to save the money and Democrats voting to spend it, the House insisted on going ahead and spending the \$200,000,000. The vote was close—171 to 148."

**May Witness Atomic Tests**  
 Ellsworth said he had been invited to witness the atomic bomb tests this spring and that he would do so if too much time is not required and if there is a lull in Congressional business. The Congressman argued in favor of using modern war ships in the tests.

"It was argued on the floor by a few members who are opposed to the conduct of the tests that it was wrong to destroy a number of our ships, some of which have been completed less than two years. The answer to this objection was that we cannot tell what sort of ships to have in our future naval defense unless we know definitely what happens to ships when they are attacked with atomic bombs.  
 "The completion of some ships now under construction has been delayed until these tests are made. It was pointed out that unless some modern ships are used as targets, we have no way of knowing how modern construction will react."

**OSC STUDENTS TO FLY**  
 CORVALLIS, March 21.—Three hundred Oregon State College students, including 22 girls, have signed up for flight training courses to be taught here for the first time next term.
