**Churchill to Tell Life History**

NEW HAVEN, Conn., March 21 (AP)—Winston Churchill, man of action, plans to dictate part of his memoirs while resting in bed.

The former British prime minister, who sailed for home this morning aboard the Queen Mary, took with him two electronic re- cording sets equipped with a special lapel microphone to be used alternately at the bedside and while pacing up and down.

He also purchased 1000 plastic discs, enough to record 250,000 words of the story of his life.

Workers at the Soundscaper Corp. plant here put in overtime to complete the equipment—in- cluding a loud buzzer to remind him to change discs in the event he is carried away by his words.

Churchill left a special recording for the workmen, thanking "those at the factory who gave up their weekend leisure to help get this finished in time," and in this remarkable way.
