

Openings Seen For Officers

A new War Department authorization, coupled with those previously issued, will make a total of 7589 vacancies available to officers who have gone on inactive duty or terminal leave, but who desire further active duty, according to announcement Friday.

Latest quota increase means recall to active duty of an additional 1000 National Guard and Reserve officers of all grades for service with the Civil Affairs Division, 40 for service with the Intelligence Division, 35 for service with the Foreign Liquidation Commission and 50 for service with the Finance Department.

Because the department wishes to fill the vacancies with volunteers, quotas have been established to meet needs of each branch of the service whose personnel problems have been made acute by rapid demobilization, the announcement said. The department is authorized to recall officers without their consent during the emergency, but prefers the volunteer system.

Officers on inactive status without a reserve or National Guard commission may apply for active duty if they have applied for reserve commissions. Application blanks for both are available at the Eugene office of the Army Reserve Corps, Post Office Bldg.

Burning Freighter Sends Urgent SOS Message

LONG BEACH, Calif. (AP)—An urgent SOS from the freighter El Salvador Victory, 6500 miles south of Los Angeles harbor, Friday reported flames advancing from the vessel's No. 3 hold.

Coast Guard authorities dispatched the cutter Perseus immediately after receiving the first message and readied a PBM search plane for an early morning flight to the craft's position off Mexico's Magdalena Bay.

A Navy tanker near the burning freighter was ready to go to its aid if necessary, and the Perseus was scheduled to reach the 10,500-ton El Salvador about 1 p.m.

There are about 17 species of albatross.

Taxi Driver Arrives, But So Does The Baby

TACOMA, Wash. (AP)—Taxi Driver Gordon Studholme carefully inspected his cab for wings Friday after it beat the stork, doing 18 miles in 15 minutes.

Studholme received an urgent call from expectant father Sgt. Wilburn Sullivan, picked up the sergeant and his wife and headed toward the Fort Lewis hospital at 80 miles an hour.

As the cab zoomed through the fort gates, Studholme yelled "this is emergency," to the startled MP's and raced on to the hospital.

The minute the cab stopped, a waiting nurse climbed in and within a short time a baby girl had arrived.

"I've had close calls on maternity runs before," Studholme observed, "but this is the first time my crate has been both a taxi-cab and a delivery wagon in the same hour."

Drain Raises Play Funds

(CONTINUED FROM PAGE 1)

mond in the playground area and the high school has money to build a tennis court. Through cooperation of the school and the city of Drain it is hoped that a qualified physical education director will be available for year-round supervision of playground activities, Whipple said.

In addition to workers in Drain and vicinity, some men from outside the immediate region came in and donated their time. These included Sid Moore, Dalton and Bill Mattson, who work for the Gardner Lumber Co. below Elkton, and who donated a day's time each by working for Blomberg, Applegate and Blomberg, Charles Meade and Don Harrington of Sutherlin donated a day each. Frank Martin donated his truck for a day.

Whipple said his North Douglas Living War Memorial Committee is well pleased with the start that has been made and is confident that continued effort and cooperation will make it possible to complete a project which will be a real credit to this part of the state.

Porter Tells OPA Policy

(CONTINUED FROM PAGE 1)

about 15 per cent last month and no further change was made in this category today.

OPA said the footwear affected by Friday's and last month's order amounts to about 30 per cent of total production, and that the increases will raise the general level of shoe prices about 2.4 per cent.

In addition to several types of clocks and household television receiving sets, OPA removed price ceilings from low-back chairs used mostly as piano chairs, rubber floor mats and runners, automobile seat-bed units and awnings, and machine-attached snap fasteners. Umbrella frames also were decontrolled.

Types of clocks exempted from control include battery-operated clocks (except automobile clocks which remain under control), china clocks, grandfather hall clocks and onyx-cased clocks.

Producers' ceilings on grain machinery and equipment were boosted eight per cent to compensate for increased production costs.

RIGHT AT HOME
JEFFERSON CITY, Mo. (AP)—Four baby wrens accompany Farmer Mortie Kronk every time he drives his car to town. Their nest is under the running board. Mama wren flies from the nest when Kronk starts the car and lets her children take the trip alone.

Petroleum is a complex mixture of hydrocarbons and their sulfur, nitrogen and oxygen derivatives.

Life Again With the OPA Will Be More Costly Than Before

BY HELENE MONBERG
WASHINGTON—(AP)—Ceiling prices were back Friday. But they seemed to be heading up.

Groceries, dress shops, and department stores renewed relations with OPA. So did landlords.

Merchants dug up old maximum prices for almost everything. Some items, though, still were scott free. Butter and meat could go to the highest bidder. So could meat products, milk, and such dairy products as ice cream.

OPA made it plain plenty of increases were coming. The new OPA bill, officials said, made some raises mandatory, and others probable.

Look for somewhat higher restaurant prices than OPA used to allow. This will reflect price increases on some of the foods the restaurants buy—foods that are now free of controls.

Bread, flour and cereals won't stay at present ceilings long. They are made of grain, and grain has been "decontrolled."

Clothes will cost more—as much as 20 per cent. Some boosts are in sight in the next 20 days, others by fall.

High priced shoes will be even higher priced. An eight per cent increase is in prospect. Rubber footwear will go up 20 per cent, probably within 20 days.

Prices for new cars, already boosted twice, will get another increase, restoring dealers' profit margins. They will cost up to \$100 more than former OPA prices.

Increases were in the cards for vacuum cleaners, washing machines, refrigerators. Some low-priced lines of home appliances may disappear. OPA can't force their production now.

Rent ceilings were back to June 30 levels, just as most prices were. If your landlord

Local Forest Tops in Cutting

Willamette National Forest led all national forests in Oregon and Washington during the fiscal year ended June 30, 1946, in volume of timber cut on forest sales and exchanges, reports J. R. Bruckhart, Willamette supervisor.

During the year, 117,255,000 board feet with a total value of \$494,048 was cut from 148 timber sales. The amount cut fell below the goal set because of adverse weather conditions, and difficulties encountered by operators in work stoppages and unavailability of manpower, the supervisor said. Cut for the 1946-47 fiscal year is expected to be 186,000,000 feet, and indications are that the estimate will be met or exceeded, according to Bruckhart.

In addition to timber, sales of other forest products from Willamette included 21 sales of fens for a total of 103,376 bunches; six of cascara bark for 1900 pounds; four of yew bow billets for 5450 billets; and five of pitch, for 466 gallons.

Injury Proves Fatal to Youth

Jene Carrol Pray, 18, (originally listed as Jene Geagan), died Thursday at Sacred Heart Hospital from injuries received in an auto accident early Thursday morning just north of Eugene.

He was the son of Mr. and Mrs. Jack Geagan, his mother and stepfather, of 48 North Madison St., Eugene. Born May 21, 1928 in Aberdeen, S. D., the young man came to Eugene four years ago.

Besides his parents he is survived by four sisters, Mrs. Leslie Beebe, Springfield, Joan, Janis and June, at home; his grandparents, Mr. and Mrs. Frank Rulon, Springfield, and Clinton Pray, Ortnville, Minn.

Funeral services will be held at the Simon Mortuary Monday at 2 p.m., with the Rev. N. K. Tully officiating. Interment will be in Rest Haven Memorial Park.

Dow-Jones

Dow-Jones closing bond averages:

10 industrials, 105.44, up 0.08.

CASE SETTLED

The case of Margaret and John Hill vs. Derwina Kimball was dismissed in Circuit Court Thursday because of settlement out of court. The previous report that the plaintiff sought to recover money from a personal loan was incorrect. The money was alleged owed in a real estate transaction.

Farm work deaths reached 4500 in 1945 in the United States, an increase over the year before from more motor vehicle accidents while at work.

wants more, you have OPA's word: Don't pay it. OPA is no help if your landlord tossed you out while ceilings were off. Out you stay.

Any lease you signed in the control free period must jibe with the ceiling. Otherwise, says OPA, it's void.

Muskrat furs, back under ceilings, are a good bet to come out. Silverware and all silver products also will be "decontrolled." Some types of air conditioning may be control-free, too.

Some building materials are going up from eight to 10 per cent. Others in plentiful supply, will be freed of ceilings.

Furniture ceilings will go up somewhat. Another sure thing: there'll be no shortage of confusion, not for the next 30 days. Even OPA was doubtful about some clauses in its new lease on life.

Four Negroes Slain by Mob

(CONTINUED FROM PAGE 1)

bushes along the side road about 40 feet from where Harrison's car had been parked at the entrance to the bridge.

The sheriff quoted Harrison as saying none of the men wore a mask.

Sheriff Gordon said that without identification of any members of the armed band, he had gone as far as he could with his investigation. He said he had called in the Georgia Bureau of Investigation, a division of the state police, and that the Federal Bureau of Investigation had called him.
