 a fully bloomed flower, and  
 the bud is opening, and  
 seems to be a normal sized  
 flower. "Could the influence of  
 the super bombs be accentuat-  
 ing the natural tendency of  
 the plant to produce the biggest,

 she asks, could the influence

## BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

If backache and leg pains are making you  
 miserable, don't just complain and do nothing  
 about them. Nature may be warning you that  
 your kidneys need attention.

The kidneys are Nature's chief way of taking  
 excess acids and poisonous waste out of the  
 blood. They help most people pass about 8  
 pints a day.  
 If the 16 miles of kidney tubes and filters  
 don't work well, poisonous waste matter stays  
 in the blood. These poisons may start nagging  
 backaches, rheumatic pains, leg pains, loss of  
 pep and energy, getting up nights, swelling,  
 puffiness under the eye, headaches and disor-  
 ders. Frequent or scanty passages with smart-  
 ing and burning sometimes shows there's some-  
 thing wrong with your kidneys or bladder.  
 Don't wait! Ask your druggist for Doan's  
 Pills, a stimulant diuretic, used successfully  
 by millions for over 40 years. Doan's give  
 happy relief and will help the 16 miles of  
 kidney tubes flush out poisonous waste from  
 the blood. Get Doan's Pills.
