AP FEATURES
The Chinese Communists are founding a university to train students preferring capitalism will be welcome—provided they bring their capital and pay their own way.

Students and professors who do not believe in Communism will practice it under a communal system. The communists in their view will have to live "on their own."

Chancellor Fan is the way Chancellor Fan has put it in explaining the school of North Fan Tah. The school is to be established in southern Hupeh province of central China.

The party line will be hewn to the mouths of students, feeding the intellects of the party line will be cut out the window, says the school.

The university is interested in the position of the professors, absolute freedom of thought are the first requirements of progressive education.

Trainees Told To Advise VA

Veterans who are taking on-the-job training were advised this week by the Veterans Administration not to quit their jobs or transfer to other employment without notifying VA first.

Emmett F. McGraw, chief of the guidance center in Eugene, explained that failure to do so may jeopardize a veteran's chance to resume training at a later date.

"It is to his positive advantage to consult with a VA training officer before quitting his training or taking another job," McGraw stated. "The VA will help the veteran set up a new program of education or job training, or will arrange to postpone his use of GI training rights until a later date."

Changes are permitted only for good reasons, as the VA intends that the veteran should utilize his educational benefits primarily to further a life-long occupation, McGraw pointed out.

A change of objective in a training program requires the counsel of advisers in the VA guidance section. In Oregon, there are VA guidance centers in Portland, Corvallis, Eugene and La Grande and training officers also at Klamath Falls, Medford and Astoria.
