

Student's Ventriloquism Offer of \$250 Weekly

show for the Active Club at the Thursday night meeting. Aiding him was his dummy, Elmer. C. H. Sutherland, advance agent for Polack Brothers Circus which will play here later in the month, was a guest at the meeting. After seeing Taylor's act he offered him a place in the show.

The young university student had not decided by Friday noon whether or not to accept the offer. A native of Bellingham, Wash., he is majoring in radio and drama at the university. Since he started working with ventriloquism at the age of ten, he has made many professional appearances at theaters and night clubs.

The circus for which Sutherland is the agent will appear in Eugene later in the month and aid in raising funds for the Amazon Park project. The Active Club will be one of several local groups sponsoring the appearance to raise funds.

Discovered Bergen
Sutherland, eleven years ago, discovered Edgar Bergen and Charlie McCarthy. Bergen was then a student at the University of Chicago, and was offered a contract similar to the one offered Taylor. After appearing for three weeks with the Polack Shrine Circus, Bergen was introduced by Sutherland to Joe Jelmette, publicity director for the National Broadcasting Company in Chicago. Since

Cougar Killed Near Leaburg

When the weather gets colder the cougars get bolder— Or at least that's what some Lane county residents are beginning to believe. Rumors that cougars are beginning to appear in populated areas were made a fact in one case Friday by Joe May, Springfield logging truck operator.

May reported he was driving his truck by the lake above McKenzie River dam Friday morning when a large cougar crossed the highway in front of him.

He climbed out of the truck, borrowed some dogs and a gun from M. Mulligan, Lakeside, and gave chase. A short distance into the woods his dogs found the cougar and held it at bay in a tree while May finished him off.

Because he could not have caught the animal without the dogs, May donated the pelt to the man who lent him his hunting equipment.

then he has risen to the top spot in his profession. Sutherland stated Thursday night that he believed Taylor's act holds even more promise than Bergen's did at the time he was discovered.

Active Club members made Sutherland an honorary member of the club, following which he presented the club with \$100 to be used in the fund Activians are raising to finance the State High School Basketball Tournament scheduled for Eugene in March.
