

Extradition May Cause Dispute

CALDWELL, Idaho—(AP)—Whether or not Mrs. Gladys Lincoln Broadhurst, 40, will fight extradition to Vale, Ore., where she and her chauffeur, Albert Lee Williams, 23, are jointly charged with the murder of her husband, was to be decided Monday.

The woman, whose wealthy rancher-husband, W. D. Broadhurst, 51, was found slugged and shot on a desolate road between his Caldwell dairy farm and his Jordan Valley, Ore., cattle ranch, conferred in jail here with her attorney.

At Vale, District Attorney E. Otis Smith said Williams admitted the slaying in the presence of several officers but the prosecutor refused to speculate on the motive of the crime.

Broadhurst's body was found last Thursday, four days after he was reported missing.

The couple, who were married five months ago at Reno, Nev., first met 20 years ago while attending Albion, Idaho, Normal School.

Both Williams and Mrs. Broadhurst will be tried in January, Smith said.

Slide Causes 1-Way Driving

SALEM—(AP)—A rock slide five miles east of Hood River on the Columbia River Highway caused the State Highway Commission to limit travel to one-way traffic Monday.

The commission said the small slide should be cleared some time Monday.

In spite of the heavy week-end rains, highway conditions were normal in all other places.

The weather bureau warned the commission to expect steady rains Tuesday, with no snow below 6,000 feet elevation.

Italians Hear Reports Of Plot Against Pope

ROME—(AP)—An informant at Italian police headquarters said Monday that "vague reports" were received there some days ago of an impending attempt on the life of Pope Pius XII.

The informant said these reports—which an intensive investigation had failed so far to substantiate—said the plot had been fomented by Yugoslav elements in the Vatican's action in excommunicating Yugoslav Catholic officials held responsible for the collaboration trial of Archbishop Alojzije Stepinac, Stepinac, head of the Catholic Church in Yugoslavia, was convicted and sentenced to 16 years imprisonment.

A list of some 20 names of the alleged plotters was furnished to the Italian police, the informant said, but so far police have not found any of the persons named—or even determined whether they really exist.

Cops Have 47 Ways To Identify Drunks

BILLINGS, Mont.—(AP)—Billings police are instructed to consider these questions in deciding whether a person is drunk:

Does his breath have an odor of alcohol? Is it faint, moderate or strong?

Is he partly dressed or undressed, or is his clothing dirty?

Is he polite, excited, reserved, hilarious, talkative, insulting, combative, stupefied, delirious, silent or dull?

Is he hiccupping, belching, drooling, punching, picking, fighting, sleeping, in convulsions or unconscious?

Are his eyes normal, watery, bloodshot, roving, downcast, or glassy?

Is he swaying, wobbling, sagging, falling or unable to stand?

Is his speech fair, slurred, stuttering, confused, incoherent, whispering or jerky? How is his enunciation?

Can he touch his finger to his nose?

Murder Charge Filed Against Linotype Man

SPOKANE, Wash.—(AP)—Prosecutor Leslie Carroll Monday filed a first-degree murder charge in justice court against 52-year-old Charles Branscombe for the shooting of his wife and stepson last Thursday night.

Branscombe, veteran linotype operator on a Spokane newspaper, surrendered to Coeur D'Alene, Ida., police 24 hours after the tragedy.

Jannelle Beth Chase

Funeral services for Jannelle Beth Chase, infant daughter of Mr. and Mrs. Cecil Chase, will be held Wednesday at 2 p.m. at the Bartholomew-Buell Mortuary in Springfield. The Rev. Ren Hollister will officiate. Interment will be in Rest Haven Memorial Park.

MG in Korea Called Paradox

SAN FRANCISCO—(AP)—Americans would revolt in three months if they were in Korean shoes, says Kim Dong Sung, president of the Korean Press Association, who has just arrived here.

The "paradox" of a military government in time of peace is being borne "quietly and patiently," he says, because Koreans realize that after 40 years of Japanese suppression they can regain their feet only gradually.

The 38th parallel of latitude, set to divide the American and Russian occupation zones and which has been an airtight barrier from the beginning, "cuts in two a country that is homogenous in race, culture and customs ingrained through a history of four thousand years."

Make an iron curtain out of the old Mason-Dixon line in this country, suggests Mr. Kim, and you have an American equivalent of the 38th parallel in Korea.

Mr. Kim talks about many things, but mostly about the 38th parallel. Of Lt. Gen. John R. Hodge, the American commander, he has only kind words, and expresses "our deep appreciation for... his sincere and wise leadership."

Mr. Kim says, however, that the situation is beyond Hodge or anyone else on the spot. The joint Russo-American Commission set up to unify the country has not met for months, and when it did the Soviet members had to refer everything to Moscow.

Back of this is Russo-American rivalry and suspicion, says Mr. Kim, which is most dangerous in Korea because this is the one spot in the world where the two great powers are in exclusive contact.

He says Koreans hope that either the foreign ministers or the United Nations will prod the joint commission back into life so it can get on with its assigned work—uniting Korea.

Louis Scores Business Win

NEW YORK—(AP)—Although opened only recently, Heavyweight Champ Joe Louis' restaurant in Harlem quickly has become a center of New York's Negro night life, a tasteful \$500,000 riot of green, white, red and silver, a modern plush headquarters for the nocturnal preferences of that section of upper Manhattan.

The restaurant seats 500 persons—300 in a cocktail lounge, the rest in a dining room. The lounge has a mural which extends 100 feet on two walls, bearing the likenesses of Negro celebrities such as Marian Anderson, Paul Robeson, Booker T. Washington, Bill Robinson, Dr. George Washington Carver.

The big oval bar is lighted by a huge, inverted bowl. Furniture is of modern design, chrome tubing with green and white leather upholstery, white table tops.

Radar Operator Given Posthumous Award

A posthumous award of the Bronze Star Medal has been made to Elvin Earl White, radio technician 1-c, and son of Earl White, 642 Charnelton St. The medal was in recognition of heroic service given by White as a radar operator aboard the submarine USS Runner, during the first war patrol of the vessel against Japanese surface forces in a strait off Palau Island.

The citation accompanying the medal read in part: "Skilled and courageous in the performance of duty, White rendered invaluable service during the execution of a daylight, submerge attack in restricted waters, contributing materially to the achievement of the Runner in sinking three Japanese freighters totalling 19,815 tons and the damaging of two additional 14,189 tons, and to her success in evading severe enemy countermeasures. White's heroic conduct throughout was in keeping with the highest traditions of the United States Naval Service."

Jiggs Will Get Bone For Loyalty in Blaze

SEATTLE—(AP)—Meat shortage or not, Jiggs, a three-year-old mongrel dog, is going to get the biggest chunk of bone he's ever had by way of a reward. The dog, choked by smoke from a fire in the basement of his home Sunday pulled the covers off 18-year-old Ruth Brown and tugged at her arm to waken her in time to escape. Firemen who entered the house a few minutes later were nearly overcome by fumes.

Permits Necessary For Large Oil Tanks

City Fire Inspector Lester Barker warned Monday that all persons who install fuel oil storage tanks of more than 150 gallons capacity must obtain permits from the fire department.

A city ordinance requires that the fire inspector check such storage tanks for proper installation before issuing a permit.

RECEIVES AWARD The Oregon State Society of Certified Public Accountants Monday awarded its annual gift of books to LeRoy Hewitt, University of Oregon student.

TIPS ON HEATING the home will be given the Home Planners Institute Wednesday night by Bert N. Farnes, above, heating concern executive from Portland.

Planners to Hear Hints on Heating

Expert advice on home heating will be received by members of the Home Planners Institute Wednesday at 7:30 p. m. in a talk by Bert N. Farnes, of Farnes and Martig, Inc., heating concern at Portland, it was announced Monday by Bob Booth, program chairman.

Farnes will illustrate his talk with colored slides.

The meeting at the Wilson school will be the final one in the current series of Home Planners lectures sponsored by the Chamber of Commerce.

"We hope all our members will attend this final meeting," said Booth. "The concluding program will be timely and I am sure will be among the best we have had."

"Mr. Farnes has been active for 26 years in the fields of heating, ventilating and cooling. He is past president of the Oregon chapter, American Society of Heating and Ventilating Engineers and a member of the Society of American Military Engineers. He was chairman of the air conditioning conference for the three years it was held at Oregon State College.

"He will have valuable information for our members."

Skirts Will Be Longer

NEW YORK—(AP)—Skirts will be longer, evening gowns will rustle with yardage and uneven hemlines will have a chance to win or lose the customer's vote.

Those changes in women's styles appear to be the most important to be incorporated in spring clothing collections as a result of the lifting of government controls last Saturday.

With a little more than a month to go before buyers begin viewing their spring lines, designers are hustling to get the rest of their pet frustrations out of the dresses not on the cutting boards. Their trimming and above the waist imaginations had been given the green light a week earlier with modification of L-85.

It seems almost certain that daytime skirts will be one, two or many more inches longer. Designers have been trying to get them down for a year, but there is a difference of opinion about how far is enough, and a final skirt length will probably be the consumer's choice for at least another season, as long as the knees don't show.

Aside from that, there should be no radical changes in daytime silhouettes attributable to the de-control order. Skirts will be permitted to swing as wide as they wish, but the recent trend has been toward slimmer lines and it seems sufficiently universal to hang on a while.

Portland Firm Plans Steel House Building

PORTLAND—(AP)—Allocation of steel by the national housing expediter's office will launch construction of steel homes here at the rate of 100 to 200 a month in a portion of a war-built shipyard plant, Insulated Steel Homes Inc., reported Monday.

D. H. Joyce, chief of the company organizers, said the six-room units to sell at \$8,000 to \$8,500 erected on the owner's lot would be fabricated at the Gunderson Bros. plant.

On the site erection can be completed in five to seven days after laying of a concrete slab, Joyce said. Chimney and fireplace openings could be cut into the steel "stressed skin" type walls by torch after erection.

The first will be completed within 10 days after receiving the steel allocation from Washington, D. C., Joyce reported.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Yank's Death Prompts Protest

BERLIN—(AP)—The American military government protested sharply to Russian authorities Monday over the fatal shooting of Harry D. Flory, Jr., of Pawnee City, Neb., by a Soviet military policeman in the Soviet sector of Berlin.

The office of Lt. Gen. Lucius D. Clay, deputy American military governor, disclosed the protest, saying that it was concerned "not so much with the shooting as with the fact that an American party was molested at all in this city where there is free traverse between the occupation sectors."

Flory, 28, was a civilian executive in the AMG. He was killed Sunday when he failed to follow orders to proceed to Russian headquarters after a Russian major and a military policeman had halted him and his companions—two American women and a German chauffeur—on a picture-taking jeep ride.

Reports to agents of the American Army's Criminal Investigation Division said the Russians halted the Americans because they had been taking photographs in the neighborhood of Unter Den Linden.

Later U. S. Army headquarters here said it had an unofficial version from the Russians that the Russians stopped the Americans while "looking for hoodlums in an American jeep who invaded a polling place" during Berlin's Sunday elections.

An official report of the incident from Russian headquarters was expected Tuesday.

Police Catch New Tarzans

PORTLAND—(AP)—Two youths charged with burglary were captured in the early dawn Sunday after they had squeezed through barred windows, scaled high ledges, slid down elevator cables and dodged gunfire in alleys.

Detective Lt. Carl Crisp reported Robert H. Charboneau, 18, and a 14-year-old companion were on a second story ledge of an office building when they set off a burglar alarm. As police searched the roof, the boys slid down elevator cables inside the building and dashed into an alley.

Gunfire halted Charboneau but his companion was arrested at his Vanport home where he was in bed. Police said Charboneau was wanted in a robbery in San Francisco where he admitted he escaped police by shimmying down the understructure of the Golden Gate Bridge.
