during the fiscal year ending last June 30.

The administration said in its annual report that this revenue covered all costs of operation maintenance, depreciation and interest and left a surplus of \$4,754,895 for the year.

Power deliveries from the generators at Bonneville and Grand Coulee Dams totaled 5,831,074 kilowatt hours for the year.

The report predicted that the revenues of the administration will increase substantially in the future with the development of the power of the Columbia River and its tributaries.

HELICOPTER FINDS GIRL

RIDGEWAY, N. J. — (U.P.) — Barbara Jean Black, two and one half years old, was safe at home Thursday after a helicopter pilot spotted her in a swamp two miles from home and ended a five-hour search for the missing child. She was exhausted and frightened, but none the worse for her experience, physicians said.

Boys' Good Deed Leads to Robbery

CHICAGO — (U.P.) — A heavy wind and icy sidewalks made walking hazardous and as Mrs. Dora Kalnitz, 41, neared her west side home two boys took hold of her arms and prevented her from falling.

"They were such nice looking little boys," Mrs. Kalnitz said. "And they steadied my pace until we came to an alley near my home."

Then, she related to Fillmore St. police, the boys shoved her into the alley. One grabbed her purse containing \$43 and his companion took her wrist watch and three rings she valued at \$1000.

Accessories Go 'Feminine'

Speaking of accessories, the clever woman knows that it's the little things which count and she spends much time and thought in selection of accessories. She realizes that clothing of very good cut, style and quality can pass unnoticed if these important extras do not prettily accent her costume. She knows that accessories need not be expensive. It is most gratifying, of course, if the purse of the wearer can stretch to such items as beautiful gloves, jewelry, whether costume or real. But actually the assembling of accessories is largely a matter of good taste and sometimes care given to spending a dollar is more to the point than a hasty parting from ten.

Accessories are much prettier this spring, keeping step with more frolic and femininity in clothing.

Many gloves have wider cuffs in order to fit over full sleeves and these cuffs can be ornamented. Some are seen with silver cuff-links attached thereto, others are stitched in vivid or pastel French knots. Metallic silver, gold or red feathers may float down the back of creamy black suede; hand-painted floral and vegetable designs garnish other colors. Variations are gloves bearing self-material rosettes in contrasting colors; white gloves with a red and flaring cuff, and black gloves, corde-trimmed, to match the wearer's bag.

Umbrellas, are influenced by the trend toward chic. Paris currently is decking them with golden earrings, velvet ruffles and golden balls. Length is the mode. Some are as long as 36 inches.

Belts are falling in with the idea of the new silhouette. Helping the accent on hips, some are shaped with wide side points. Others have their widest span at the back aping the fashionable slanting lines of fishtail, cutaway and other longer-back-than-front fashions. In tune with petal-shaped jackets, a few belts are scalloped and a few, to be worn with long waists or tunics are made of links and dip slightly at the front a la Renaissance.

British Steamer Burns, 42 Feared Victims

LONDON — (U.P.) — Two passengers and some of the 40 crewmen of the 7219-ton British steamer Samwater were feared last Thursday after a fire caused abandonment of the vessel during a trip from Australia to Liverpool.

The Glen Line Ltd., managers for the ship, which is owned by the ministry of transport, said survivors were picked up by the Swedish steamer P. L. Pahlsson, due to dock Thursday night at Lisbon.
