New York Markets

By T. W. KIENLEN
United Press Financial Writer

NEW YORK, Feb. 21—(UP)—Stocks moved up fractions to around 3 points today in the best price run-up since Feb. 7. Trading was less active in the early hours than yesterday.

Sentiment was bolstered by announcement after the previous close of bigger dividends for International Harvester and Nash Kelvinator, directors of the former declaring a distribution of $1 a share against 65 cents paid since July, 1944. The Nash dividend was 25 cents, against 12½ cents previously.

The market also got some good news late in the session when Ward's automotive reports disclosed that production of cars and trucks had crossed 100,000 for the first time since July, 1941. Total production in the latest week of 102,096 units compared with 97,278 in the previous week and 19,410 a year earlier.

Trading was limited by the severe snowstorm which hit New York late yesterday and piled up about 11 inches in what was said to be the worst storm in six years, as well as by the Washington's birthday holiday tomorrow when the exchange will be closed.

Many brokers living in New York suburbs, faced with high snowdrifts and biting winds, just started their weekend a day earlier.

International Harvester rose 3½ points on its dividend and other stocks up 2 points or more included Allied Chemical, Eastman Kodak, and Norfolk and Western. American Power and Light $5 preferred rose more than three points in a firm group of senior utilities.

American Can, U.S. Steel, U.S. Rubber, Houston Oil and Caterpillar Tractor all rose a point or more. Chrysler, up more than a point earlier, eased on profit taking. General Motors was little changed.

Houston Oil was up more than a point to feature its group.

WEDDING RINGS

NEW YORK —(UP)— Brides of 1947 may wear their palladium or gold wedding rings in their ears, as well as on the third finger, left hand, reports O. M. Resen, jewelry designer. "For sentimental reasons," brides are buying three wedding rings, and converting two of them into earrings that match their wedding bands, Resen said.

All snowflakes are six-sided.
