

The Traffic Death Toll Found Second Only to Multnomah List

County was second only to Multnomah last year in the number of people killed in traffic accidents. Sheriff C. A. Swarts said figures show that 38 rural accidents and six on the Multnomah had 88. County officials cited speed on curves, passing in the face of oncoming cars, intoxication, driving on the wrong side of the road, driving while fatigued, and walk-

ing into the path of approaching vehicles as the major causes of rural accidents last summer. The sheriff urged drivers to watch their speed this summer since there will probably be more traffic than ever before. The increase in rural accidents is marked during the summer months by more vacationing, more speed, and less care in driving. County officials announced that they were working with the Oregon Secretary of State's office in a campaign against traffic accidents.

SOME BITTER SOUL just couldn't wait for construction of Eugene's municipal swimming pool, and this excavation at 885 Willamette St. proved too much for him. The sign was attached to the safety fence (to keep out non-swimmers) around the 10 by 10-foot excavation last week. Water in the hole was supplied by plentiful rain. To date, no one has expressed a desire to take the first dip in the new "municipal pool." (Goodwin photo, Wiltshire engraving.)
