I SAW—Was up on the Alean Highway last week, a picturesque squaw garbed in blankets and beads, pushing a late model mail order baby buggy down the road. The papoose seemed to enjoy his four-wheel drive ride even more than those I saw riding in the more customary containers.—P. M. E.

Arab Underground Movement Formed

JERUSALEM—(U.P.)—A shop in Jerusalem was wrecked Thursday by an explosion which police described as the first blow by a new Arab underground movement called "Hurrieh," Arabic for freedom.

The blasted shop was ruined. The rest of the building was not damaged, and there were no casualties.

The bombing, as described by police, was the first time Arabs had resorted to that form of violence since their revolt of 1936-39.

The shop was operated by an Arab said to have dealt in Jewish-produced building materials and paints. The Hurrieh underground movement was reported concerned exclusively with the Arab boycott of Jewish-produced goods.

Another explosion was reported in the area of the Socony-Vacuum Oil Company's works in Haifa. Officials reported the damage slight, and no casualties.

A military truck was blown up by a mine on the outskirts of Nablus. One soldier was injured seriously.

Date for Turkey Price Support Set Sept. 1

The U. S. Department of Agriculture's turkey price support program will go into operation Sept. 1 rather than Oct. 1, according to reports received Wednesday by the Oregon State College Extension Service.

The change was made because of present high feed costs which may cause producers to market their turkeys earlier than usual. Purchases will be limited to turkeys purchased and dressed after Aug. 30.

Prices for the program to extend through Jan. 31, 1948, will be announced around Sept. 1, and

will reflect a national price of 90 per cent of price of Aug. 15, OSC said.

Backache, Leg Pains May Be Danger Sign Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg

pains, loss of pep and energy, night sweats, swelling, puffiness under the eyes, headaches and dizziness. Proper treatment shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's, a stimulant diuretic, used successfully for millions for over 50 years. Doan's happy relief will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Doan's.
