Public to Give Zoning Views
SPRINGFIELD — The second public hearing on the proposed new comprehensive zoning ordinance for this city will be held by the city council at 8 p. m. Friday in the city hall.
A previous hearing was held in June by the city planning commission before the plan, which was worked out by the commission, was passed on to the city council. Several objections to the plan were made by property owners at the council meeting earlier this month.
It is expected these differences will be worked out at the Friday hearing.

Dark Sky Halts RKO Shooting
After waiting since 7 a. m. for the clouds to break, the RKO shooting crew by mid-morning decided there'd be no filming Friday.
Director Norman Foster, huddled in his great-coat (an Oregon lumberjack checked blazer) ruefully sent his high priced talent back to their quarters but told the technicians and prop men to go on out to the set and set up some shots for when the weather breaks.
William Holden and Robert Mitchum, also decked out in lumberjack garb, apparently welcomed the day off and didn't argue when it was decided that the local weather had won another round.
Friday's clouds put the crew three days behind on its shooting schedule.

District Grades Park Grounds
SPRINGFIELD—E. H. Silke, member of the board of directors of the Willamalane Park and Recreation District, said Friday that grading of the district's park site will be completed before "wet weather" sets in this fall.
Engineers are now working out details of maps and surveying the area in preparation for grading.
Silke said equipment for little kids, including a merry-go-round, swings, teeters, etc., have already been ordered and depending on their arrival, will be installed this fall or early next spring. Fencing to surround the site is also on order and will be erected as soon as
