

'Dry' Candidates Tells Kiwanis Of Stand on Various Issues

Claude Watson, who claims he is the only member of the Kiwanis Club ever to run for president of the United States, spoke before the local Kiwanis Club Monday noon, and labeled his Prohibition party aims as "worthwhile, but unpopular."

Speaking of prohibition in the broad sense of applying to the ten commandments and to the penal code, Watson declared that his party wants to take up the government principle of prohibition of

UO Enrollment Hits New High

Registration at the University of Oregon had been closed Tuesday with final enrollment tallying 5630, the highest for any winter term in the history of the state university. Winter term of 1947 totalled 5558.

Most significant trend in the registration picture was the drop in veteran enrollment, for while the total enrollment was ahead of winter term of last year, the veteran total showed a definite drop.

Winter term of 1947 saw 3266 veterans in attendance in the University of Oregon, while the total for this winter term reached only 2993.

Men continued to hold a lead over women, with the gap a little wider than last year. Men now out number the women by 3821 to 1815.

Continued growth of the graduate school is noted with the returns this term. An increase of almost 25 per cent over winter term of 1947 brings the total enrollment in this school to 404.

Sophomore, junior and senior classes all show an increase, with the freshmen showing the only class loss.

Top enrollment in the college of liberal arts and the professional schools comes, as usual, with 2189 students registered. Business administration enrollment totals 1353, with the school of architecture and allied arts third in enrollment with 683 tallied.

Pedestrian Injured While Crossing Street

Margaret Cox, about 60 was taken to the Sacred Heart Hospital Monday afternoon after she was struck at the intersection of Willamette and Broadway by an automobile driven by Swan E. Hodges.

No address was listed for Hodges in the investigating police officer's report, but the injured woman reportedly lives at 1671 Willamette.

Tuesday her condition was reported good by hospital attendants.

Witnesses to the accident told the police that the traffic signal was changing when the woman was struck midway across the street.

Another traffic mishap Monday afternoon at 3:45 led to the arrest of Vera Abbey, Horn Lane, for failure to observe a stop sign. Her car collided with another driven by Fred L. Mountain, 880 Twenty-third Ave. E., at the intersection of Hilyard and Sixteenth Ave. Neither driver was injured, but both vehicles were damaged.

U N Mediation Group Approved

LAKE SUCCESS, N.Y.—The United Nations Security Council voted 9 to 0 Tuesday to establish a three-nation "good offices" committee to mediate disputes between India and Pakistan. Russia and the Soviet Union abstained.

Soviet Deputy Foreign Minister Andrei A. Gromyko voiced satisfaction with an expressed willingness of India and Pakistan to try to settle their differences by peaceful means but disagreed with the method of setting up the mediation agency.

The proposal was submitted by Fernand Van Langenhove, current council president, who had spent last weekend and Monday conferring with representatives of the two warring dominions.

He said both India and Pakistan had agreed to the proposed resolution.

The Kashmir dispute arose here when India charged Pakistan with helping tribal invaders who crossed the Kashmir border last October and still are in Kashmir state. Pakistan retorted with a charge that India was committing acts of aggression against her and demanded that the U.N. appoint a commission or commissions to investigate Muslim charges of mass murder in India.

Brewery Ration Plan Expected

WASHINGTON—(AP)—The government will ask the nation's brewers Tuesday to work out a voluntary industrywide agreement to curtail beer production by perhaps 10 to 20 per cent.

An informed source said Secretary of Agriculture Clinton P. Anderson believes a cutback is necessary to provide additional grain for human and animal consumption and thereby ease inflationary pressures on U.S. food supplies.

The proposal, it was learned, will be presented Tuesday to a meeting of brewing industry representatives who were invited to Washington by Anderson to work out a voluntary grain-saving program. The Republican-sponsored Anti-Inflation Law authorized the government to suggest such voluntary industry agreements. But it did not empower the government to force any, but the distilling industry to accept its proposals.

The informed source said that in addition to a percentage cutback, Anderson would ask the brewers to extend their 90-day voluntary "grain conservation" program which expires Jan. 31. Agriculture officials believe this program has had little, if any, effect on beer production.

Disclosures of the proposal to cut beer output coincided with other developments affecting whiskey production, which already has been curbed under a compulsory government grain rationing program.

Schenley Distilling Corp., one of the nation's biggest whiskey makers, went before a three-judge tribunal in U.S. Court of Appeals and asked that the rationing order be set aside as "unconstitutional" and "discriminatory." The government's power to ration grain to distillers expires Jan. 31.

Investigation Asked In School Slayings

BOONVILLE, Mo.—(AP)—Two strangulation slayings in cells at the state training school for boys brought a demand Monday for an investigation by Missouri's governor and attorney general.

Senator Ralph Erdwin introduced a resolution in the state senate demanding that Governor Phil M. Donnelly and Attorney General J. E. Taylor investigate what he described as "chaotic conditions" at the correction institution.

Roland Barton, 15-year-old inmate, was found strangled in his segregation cell Sunday night. A coroner's jury held that he died at the hands of two cellmates, J. D. Hicks, 16, and Robert Osewald, 14.

Last Aug. 31 Donald Threlkeld, 14, was choked in his cell. Jerry Owens, 17-year-old inmate, was charged with first degree murder and is awaiting trial.

Bombsight Thieves Find Them Costly

Four juveniles were fined \$20 each and assessed court costs of \$5 each in district court Monday afternoon after admitting that they stole "bombsight" radiator ornaments from Buick automobiles.

All boys between the ages of 15 and 17, the quartet were among 13 juveniles arrested last week in a police round-up on "bombsight" thieves.

Tuesday word at police headquarters was that officers are still working on reports from Buick owners previously victimized by the juvenile craze to wrench the chrome ornaments from their motorings and make heavy bracelets from them.

Lumber Profits Hit

PORTLAND, Ore.—(AP)—President James E. Fading of the International Woodworkers of America (CIO), said Tuesday that price reductions in the lumber industry would not soften union demands for a 40-cent per hour pay boost.

Charging that lumber prices were "ridiculously" out of line Fading said the 10-per cent decrease in lumber prices announced recently by one major producer would still leave "profits sufficient high" to accommodate the 40-cent wage increase.

Name Banders Testimony Due

WASHINGTON—(AP)—Chairman Fred A. Hartley, Jr., announced Tuesday he will call some of the nation's big-name band leaders before his House Labor Committee for a "rank-and-file" reaction to James C. Petrillo's ban on record-making.

"I'm going to invite several leading musicians to testify," the New Jersey Republican said. "If they do not come, they will be subpoenaed."

Hartley's announcement was made at the conclusion of industry testimony on the ban which became effective on Jan. 1. Petrillo, president of the American Federation of Musicians (AFL) will present his side of the story Wednesday.

War Mines Still Menace Ships

SEATTLE—(AP)—Eighty-seven mines were reported in the sea lanes of the North Pacific coast during 1947 and 57 are still at large menacing ships in Oregon, Washington, British Columbia and Alaska waters, the 13th Coast Guard district headquarters reported here Tuesday.

Thirty of the mines were located and destroyed by Coast Guard and Navy personnel. But the remainder are believed to be still afloat somewhere in the Pacific coast waters, Coast Guard officials said.

According to the Coast Guard, the number of mines reported has taken a sharp drop this month with only three being sighted. Two of these were destroyed, they said.

However, the officials warned that this does not mean that the mine menace is over in Pacific coast waters. More than 35,000 mines were planted by the Japanese Navy during the war, and many of them have never been found.

Coast Guard officials said they may be expected to break loose from their rusted moorings in storms and drift with the currents to the west coast of the American continent for many years to come.

Firemen Answer 3 Calls in 6 Minutes

Three fire alarms within six minutes were received at the city fire department Monday afternoon.

The first, at 5:33 p. m., sent a truck crew to 1441 Ferry St. to prevent damage from a flue fire. Another truck was dispatched to 1240 Twelfth Ave. W., two minutes later to attend to an overheated stove, and at 5:39 another flue fire call was answered at 1563 Lawrence St.

The three alarms were handled without reported property loss, as was another flue fire at 335 Pearl St. at 8:15 p. m. and trash fire at First and Garfield at 10:15 p. m.

However, a blaze credited to a careless smoker resulted in damage estimated at \$50 in the Hampton Bldg., 610 Willamette, shortly after 3:45 p. m. Firemen said that the fire, in the second floor ladies' rest room, would have been a serious threat to the building had it burned a few minutes more before their arrival.

De Marigny Heiress Seeks Annulment

NEW YORK—(AP)—Nancy Oakes de Marigny, 23-year-old heiress to the gold mine fortune of her slain father, Sir Harry Oakes, has brought suit to annul her marriage to Count Alfred de Marigny, it was disclosed Monday.

The action, filed several weeks ago, became publicly known when State Supreme Court Justice Benedict D. Dineen signed an order permitting notice to be served on de Marigny by publication.

De Marigny, 41, was acquitted in 1943 of bludgeoning Oakes to death at Nassau in the Bahamas. Mrs. de Marigny expressed belief in his innocence throughout the long trial.

Store Window Smashed by Thief

A display window at Newmans' fish market, 39 East Broadway, was broken early Tuesday morning by someone who reached through and stole a quart can of chicken and then fled before being discovered by police patrols.

An officer noticed the smashed window at 12:28 a. m. and all cars were alerted to watch for suspicious persons in the surrounding area. An immediate check by the owner of the store revealed that nothing was missing from the store other than the can of chicken.

UO Professor to Attend Conference

Jack R. Parsons, assistant professor of sociology and social work in the University of Oregon, will speak as a member of a panel on teaching methods in the pre-professional social work courses, at the annual meeting of the American Association of Schools and Social Work in Minneapolis, Minn. The meeting will be held Jan. 22 and 23.

COAST FRUIT PURCHASED

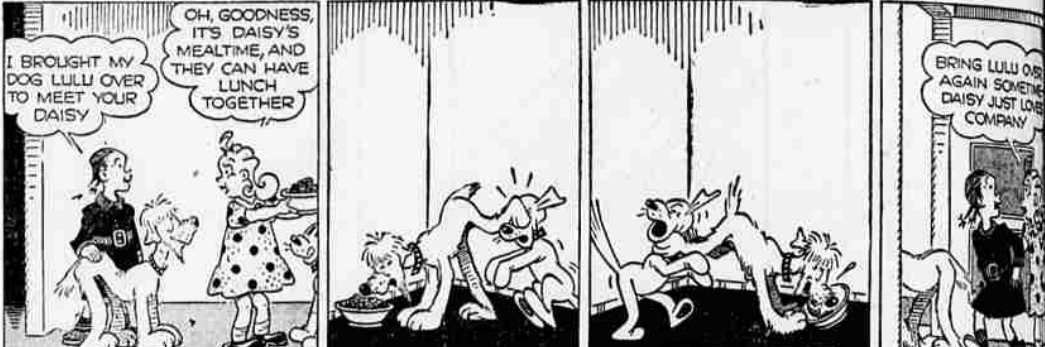

WASHINGTON—(AP)—Up to 125,000 boxes of winter pears grown in Oregon, Washington and California will be purchased for the school lunch program by the Agriculture Department, officials said Tuesday.
