

Finance Steps Clear Council

(CONTINUED FROM PAGE 1)

J. Don Smith and other spokesmen for the city's recreation council spoke in behalf of the proposed program which envisions a capital outlay of either \$100,000 or \$200,000—depending upon the city's financial ability—and additional annual operating costs of approximately \$20,000.

Another principal item of discussion was the Millrace project. Councilmen explained that they are proposing to use \$10,000 already appropriated for work in restoring the stream, plus any sum up to \$20,000 which is matched in like amount by other parties favoring the project. None of the city's money would be used for right-of-way costs, the councilmen stated.

During the discussion the esti-

imated cost of restoring the Millrace was cited as \$28,000. Discounting the \$10,000 on hand, the cost to be shared equally between the city and other proponents would be \$18,000—\$9,000 each.

The admissions tax proposal was referred to the finance committee for detailed study of its application before the council takes final action, and no conclusive action was taken on any of the other propositions.

In other actions the council:

1. Voted to continue the present charge of garbage collection service in the city during the next year. Collectors are allowed to charge residential patrons 90 cents per month under the approved fee schedule.

2. Authorized deeds to property owners on 24th Ave. E. for a seven-foot strip of land on either side of the street. The city originally held title to the land for purposes of providing a 74-foot street, but has since ordered construction of a 60-foot street.

3. Authorized the issuance and sale of \$48,570.98 of improvement bonds under the Bancrofting plan for street and sewer financing.
4. Agreed to meet with members of the city planning commission Feb. 2 for a third and final session regarding the proposed comprehensive zoning ordinance.

TRAINER DIES
CORAL GABLES, Fla., Jan. 24.—Henry McDaniel, 82, trainer who conditioned Sun Beau, Exterminator and other famous horses, died here Saturday.

FINALISTS IN COMPETITION for the Future First Citizen award, sponsored by the Eugene Jaycees, are these high school leaders who will be honored guests at Wednesday night's Junior Chamber banquet where Gov. Hall will be the featured speaker. Midwest Faces New Cold Front

BY ASSOCIATED PRESS
The Midwest got a new batch of frigid weather from Central Canada Tuesday, the third cold wave in a week, in which 150 deaths were attributed to the cold and snowy weather.

The fresh mass of cold air centered in the Dakotas and Minnesota and moved into other sections of the central states and the Rocky Mountain region. The federal weather bureau in Chicago said temperatures across the country, except in southern Florida, were below normal.

The continued cold weather throughout the eastern half of the country found many communities curbing industrial activities as a measure to conserve fuel for domestic purposes.

The ice-clogged Ohio River was closed to navigation for the first time since 1940 and a dozen barges loaded with 405 new automobiles were caught in the ice 10 miles upstream from Evansville, Ind. The barges were enroute from Cincinnati to Myersville, Miss.

The death toll from causes attributed to the cold and snowy weather of the past week was counted in 26 states—in the east, midwest and south. Pennsylvania and West Virginia each reported 15 fatalities; there were 23 in the New England states; 10 in Texas and nine each in Kentucky, Ohio and Indiana.

Temperatures of near 30 below were reported in the icy regions of northern Minnesota near the Canadian border and they were near that mark in parts of North Dakota and Montana. The mercury also skidded to below zero in Wisconsin, Michigan and Iowa and was near that mark in Illinois and Indiana.

The dry spell continued in California but there was a promise of rain from a storm moving eastward in the Pacific near the Aleutians.

Some communities in the chilled midwest reported thermometers never climbed above zero Monday. The nation's highest reading was 74 at Miami, Fairbanks, Alaska, had the warmest Jan. 26 on record—38 above. On Jan. 26, 1947, the temperature was 59 below, the coldest day that winter.

First indoor football game was between Yale and Springfield in Madison Square Garden in 1891.

Board Created In Rail Dispute

WASHINGTON—(AP)—President Truman Tuesday created an emergency board to investigate a wage dispute between the nation's railroads and three unions representing about 125,000 operating workers.

The unions have called a strike for Feb. 1.

Under the Railway Labor Act the President is empowered to appoint a fact-finding board which has 30 days to hold hearings to report back to the White House. A 30-day "cooling off" period must elapse before a strike can be called.

A White House announcement included a long list of carriers involved in the dispute with the Brotherhood of Locomotive Engineers, Brotherhood of Fireman and Enginemen and the Switchmen's Union of North America.

The order said the dispute threatened to interrupt commerce to such a degree as to deprive the country of essential transportation service.

Steamer Wins Towboat Race

ST. LOUIS—(AP)—Amid the blaring of whistles from river craft, the steamer Kokoda pushed across the finish line at 10:05 a.m. (CST) Tuesday for an easy victory over the diesel-powered Helena in their race up the Mississippi River from New Orleans.

The contest between the two Federal Barge Lines towboats, reminiscent of another era and the famed contest between the Natchez and the Robert E. Lee, found the ill-fated Helena, which encountered one difficulty after another, lagging far behind in the vicinity of Cairo, Ill.

A few scattered groups of people braved the sub-freezing weather to watch the Kokoda and its four barges cross the finish line, but fewer than 100 persons were on hand to greet the towboat when it docked at 10:30 a.m.

Convicted Medford Man Gets New Trial

SALEM—(AP)—Forrest Wilson, sentenced to life imprisonment for first degree murder, won a new trial Tuesday because Circuit Judge H. K. Hanna of Jackson County failed to instruct the jury about the different degrees of homicide.

Wilson was accused of the fatal shooting of John B. Camden in Medford Nov. 1946. The slaying followed a poker game held in a garage, the state contending Wilson had lost money in the game and shot Camden to get his money back.

The supreme court decision, by Justice J. O. Bailey, said enough evidence was submitted to sustain a first degree murder verdict, but that the lower court erred in not instructing the jury on second degree murder and other degrees of homicide.
