Increased Oil Consumption Said Cause of Current Oil Shortage

WASHINGTON — (AP) — Reduced to its simplest terms, the reason for the current oil shortage is that more oil is being consumed than ever before. Oil production has not increased fast enough to meet our needs.

New civilian uses and increased civilian consumption more than make up for the millions of gallons of gasoline which poured through allied aircraft during the war and millions of gallons of oil that fueled the world's biggest navy.

Government Stockpiling
 Does government stockpiling in anticipation of another war contribute to the shortage? Army and Navy men say that it does not—that there is no stockpiling of oil for national defense at the present time. The Army and Navy wish that they could, but storage facilities above and below ground are inadequate.

Neither the government nor industry foresaw the big demand for oil that has developed since the war. Supply and demand are out of balance because:
 1. Today there are some 2,700,000 more motor vehicles on the highways than in 1941, before rationing. The biggest gain in motor-

Surviving besides her widower are a son, Winfield, and a grandson, Winfield, Jr., both of Eugene; two sisters, Ella Jensen and Caroline Jensen, Eugene; four brothers, James Halverson, Eugene, Henry and Andrew Halverson, both of Galata, Mont., and George Halverson, Leonard, N. D.

Services will be Saturday at 2 p.m. at Poole-Larsen Mortuary, with the Rev. H. E. Aalbu officiating. Interment will be in Rest Haven Memorial Park.

Barbara Hutton Reported Better

BERN — (AP) — Barbara Hutton was reported by her husband Thursday to be in better spirits and slightly improved after a night in which he said her condition was very grave.

The Woolworth heiress was reported to have undergone a serious operation recently. She had been moved to Salem hospital, where she was under the care of Dr. Walter Hadorn, famous specialist.

One doctor at Salem said her condition was so alarming Wednesday night that a second operation was considered. He reported considerable improvement Thursday, however, and consequent deferment of the decision on the new operation.

Neither the hospital nor the doctors would discuss the nature

of the trouble. Some quarters said it was heart disease, others that it was kidney trouble. Her husband, Prince Igor Trou-

betzkoy, returned to the Hotel Bellevue palace soon after noon. He had spent the morning with her.

Woods Reports Phony Leases

WASHINGTON — (AP) — Housing Expediter Tighe E. Woods said recently he has received many complaints that landlords are turning in "phony leases on apartments where there are no tenants at all," to get the unit freed from rent control.

Woods said "We have no figures yet on how many cases in which this is true, but we're investigating."
 He said many such complaints have been received in various cities.

Woods, testifying before a Senate banking subcommittee, again appealed for an extension of rent control. He also urged freezing rents of tenants who signed "voluntary" 15 per cent increases last year in return for leases running through December, 1948.

The present rent control law expires Feb. 29.

25 Per Cent Power Increase Predicted

WASHINGTON — (AP) — Reclamation Bureau engineers see average power rate increases of more than 25 per cent on large projects if the House-approved Rockwell Reclamation Bill becomes law, Rep. Carroll (D-Colo.) said Thursday.

Their figures indicate that the feasibility of the Colorado-Big Thompson project in Colorado and the Central Valley project in California will be "highly questionable" in such event, he added.

Carroll told reporters he had obtained Reclamation Bureau estimates which lead engineers to believe it would be impractical to build a number of other projects now contemplated. These include the Mountain Home project in Idaho, the Central Utah project and the Central Arizona project.
