Now, here is a CULTIVATOR that really knocks out weeds

Some folks say a cultivator ought to "let air into the soil," "help retain moisture" etc. We say you cultivate to get rid of weeds. The other things are important, but knocking out weeds is number one. And we'll show you the cultivator that does it.

What's more, this cultivator can be attached to the Ford Tractor in about a minute! Now, that is a big advantage... especially when changing from cultivating to mowing and back again. Time surely is money now.

Study the pictures! See how easy cultivating is with Ford Hydraulic Touch Control. Let us demonstrate this cultivator for you. Rigid or spring shanks.

With Triple-Quick Attaching, cultivator goes on in about a minute.

Easily adjustable front axle steering guide permits accurate front steering.

Ford Hydraulic Touch Control makes it easy to lift the cultivator for turning

Hydraulic Touch Control sets sweeps or shovels for uniform working depth.

Mrs. Alice O. Corby has been added to the secretarial staff of the Bureau of Land Management. Eugene's rent control office will be closed Monday, Tuesday and Wednesday. It will reopen Thursday morning in new quarters in the Hampton building at Sixth and Willamette.

Pioneer Inn has signed a 100 per cent union contract for the first time with the Culinary Alliance and Bartenders Local 643, AFL, the local has announced. Bids for the use of vehicles on mounted mail routes are being accepted at the Eugene postoffice.
