Nature Boy Reaps \$\$\$\$ For Song Hit

HOLLYWOOD—Build a better mousetrap or provide anything that is popularly needed and the world will beat a path to your door whether you so desire or not. When eden wrote "Nature Boy" which swept the imagination of the nation and became the most popular tune of the day he had no idea he was living out in the open in a mountain canyon near Hollywood. Not from necessity but from choice. When RKO Radio executives decided the popular hit was just what they wanted as the theme song for "The Boy With Green Hair" starring Pat O'Brien, Robert Ryan, Barbara Hale and with Dean Stockwell in the title role, they offered eden \$10,000 for the rights and he accepted. Incidentally, it is estimated that royalties and other income from the song will net about \$30,000 this year for eden.

Miss Nothing

All this means little to eden, who loves nature and his wife and who a display of wealth is an affectation. Normally they spend about \$3 per week for vegetables, fruits and nuts and nothing for the non-existent roof over their canyon home.

Oh, yes, about all those small matters. It's in eden's contract that on the screen his name will appear like that for he believes that capital letters should only be used in words referring to the deity. A "very strange enchanted man," as haunting and unforgettable as his "Nature Boy," that eden abbezz.

Miss America to Wed

MEMPHIS, Tenn. — (P) — Miss America becomes a bride Saturday night.

Barbara Jo Walker, the tall Tennessee brunette who won the nation's beauty title in Atlantic City last September, and Dr. Vernon Hummel, 24-year-old intern, will say their "I do's" in a double ceremony before 2000 invited guests.

Additional Sentence

PORTLAND — (P) — Another 30-year sentence was handed today to Clay Tollett, 47, Baker, for Friday for bank robbery.

Sentenced previously for the same crime, Tollett, bank robbery in May, 1947, he pleaded guilty to participating in the \$37,000 robbery of the Sweet Home bank last August. The sentences will run concurrently.

Waterfront Men Out

LONDON — (P) — Work stopped completely on the London waterfront Saturday pending a show-down Monday between the government and 20,000 striking dockers, stevedores, lightermen and cold storage workers.

Arthur Deakin, general secretary of the Transport and General Workers Union, gave a final warning to the striking members of his union at a rowdy mass meeting in Southwark Park Friday night.

Latest Ship Presented

PHILADELPHIA — (P) — The U. S. Navy unfolds the latest in post-world War II fleet Saturday with the commissioning of the USS Worcester at the Philadelphia Naval base.

The 17,000-ton vessel, first of a new class of light cruisers, was designed from lessons learned during the last war. It is armed with six inch guns and has a watertight hull with no intake or output openings below the water line. If hit below the water line, only the hold damaged would be flooded.
