

**Canada Holds
Wayward Plane**
— The Canadian Department of External Affairs and the Customs Department both ordered investigation into the landing of an airplane with surplus Flying Corps war surplus on the Halifax, N. S., on the flight to Israel. "Check is being made with American authorities,"

**Pup Starves to Death
At Mother's Grave**
BIRMINGHAM, Ala. — A shining example of canine loyalty was revealed when a thin, nearly starved cocker was brought to a veterinary hospital here. The pitiful bag of skin and bones had been found by its owner after having been missing two-and-one-half weeks.
The pup was located finally at the grave of its mother, which was buried on the same day her two-year-old offspring disappeared.
Attempts to save its life by feeding through the veins failed.

a department of external affairs spokesman said. "In any case we know of no extenuating circumstances which would allow a plane to land in this country without proper papers."
The aged four-engined B-17 landed in Halifax Sunday night without having obtained clearance papers from U. S. authorities before departing from the Westchester County airport at White Plains, N. Y., four hours earlier.
The pilot and eight passengers aboard the bomber were being held under police guard at Halifax pending an outcome of the investigations. They claimed that they were merely on a long range "training flight" when they were forced down at Halifax by weather.
Delivery of the bomber to Israel fighting forces would constitute a violation of the U. S. ban on shipment of arms to the Holy Land, authorities said.

**Hightower Still
On Journey**
PRINCETON, N. J. — Larry Hightower passed through here with the 103-pound wheelbarrow he says he is pushing around the world.
The husky, tanned, 47-year-old veteran of World War I estimated that he has traveled 17,381 miles through 19 states, Canada and Mexico since he started out on the junket from his Ellensburg, Wash., home.
Hightower thought up the wheelbarrow pushing idea because he wanted to do something no one else had done, he explained.
He is making his way down U. S. Route 1 through New Jersey en route to New York. There he plans to get passage to Europe to continue his world wheeling tour.

**Research Air Pilot
Given 1948 Award**
WASHINGTON — Herbert H. Hoover, supersonic test pilot, has been awarded the Octave Chanute Award for 1948 for flight research at speeds around that of sound.
Hoover, 38 and a native of Knoxville, Tenn., is a research pilot for the National Advisory Committee for Aeronautics. The NACA announced that the Chanute Award was made by the Institute of the Aeronautical Sciences at its annual summer meeting in Los Angeles.
The flier gained national attention recently as one of the first to reach speeds faster than that of sound in the Bell X-1 rocket plane. In seven years with NACA he has made 2,500 flights in 50 different types of aircraft.

**New Treatment Advised
For Mental Ailments**
COLUMBUS, O. — Psychosomatic medicine is suggested as the treatment for those two-thirds of man's ills which include mind and emotional disturbances.
Dr. Edward Weiss, professor of clinical medicine at Temple University, explained that psychosomatic medicine is the "simultaneous application of psychological and physiological analysis in the search for the cause of illnesses."
The treatments are designed for those patients presenting no organic basis to explain their symptoms and for the equally large patient group that presents symptoms out of all proportion to the organic causes.

**Setting Hen Adopts
Five Cocker Puppies**
MIDLAND CITY, Ala. — A setting hen belonging to Mr. and Mrs. Barney Childers here has adopted five cocker spaniel pups.
The pups were born in the hen's nest. Biddy took over, driving off Queenie, the dog mother. The hen shelters the puppiet at night with her wings, and gamely prepares for battle when they are approached.
Only when the pups are hungry do they turn to their mother. When the hen goes walking, the tiny cockers scamper around her and play as though they were chicks.

Attaboy, Judge---
CALDWELL, Ida. — Traffic Judge W. S. Maxey played four roles in traffic court here. He was law breaker, law enforcement officer, defendant and judge.
Maxey absent-mindedly drove through a newly erected stop sign on a down town street. Then he promptly arrested himself, pleaded guilty in his own traffic court and fined himself \$5.
