Rail Shipment Secrecy Tight

SALINA, Kas.—(AP)—Army officials kept a tight veil of silence over preparations for a heavy rail shipment of Army equipment from Camp Phillips, reported destined for England.

A source, considered reliable but who refused to be quoted, reported that 240 flat cars were loaded with gun carriages, vehicles, ambulances and command cars.

Eighty box cars at the camp, it was understood, were to be filled with blankets, uniforms and other military supplies. Thirty-five of the cars were reported loaded and ready for movement.

Destination of the shipment was reported as Liverpool, England.

The loading was under supervision of officers at Smokey Hill Army Air Field, A B-29 bomber base.

In Washington, officials who could be reached, said they did not know what the reported shipment might represent. Army officers commented that while there were normal shipments of replacement equipment for occupation forces in Europe the amount involved in this instance appeared too large for such consignments.

Air Force spokesmen said the material was not Air Force equipment.

No More Children In Radigan's Bar

NEWARK, N. J. — (AP) — The "Children's Hour" has made its last stand at a Hoboken tavern.

The special periods of television programs for children, with the bar closed and adults excluded, no longer may be held at Patrick Radigan's Bar, Alcoholic Beverage Control Commissioner Erwin B. Hock ruled.

"Longfellow would turn over in his grave if he could see the locale of your children's hour," Hock commented.

Swiss People Plan Celebration Of Republic's Own 'Fourth'

BERNE, Switzerland — Fires will burn high on the Swiss Alps again the night of August 1st, as the mountain republic celebrates its 657th year of democratic freedom. Throughout every one of the 22 cantons, and Swiss will observe their own version of July 4th.

Church bells ring throughout the day, followed by open-air meetings, parades, local festivities and sports. Later, fires will burn on steep slopes, symbolic of Switzerland's continuing devotion to democracy.

The struggle for Swiss independence against the Hapsburg barons reached its climax on Aug. 1, 1291, when representatives of three cantons met in a meadow along the shores of Lake Lucerne.

Periodic struggles against would-be invaders had to be waged throughout the Middle Ages.

Constitution

Consolidation as a unified nation of 22 cantons was finally achieved through the Constitution of 1848, which remains today the basic law of Switzerland.

The 100-year-old constitution was modeled to a considerable degree after the constitution of the United States. The most important thing borrowed by the Swiss was the bicameral system. Principal difference between the two constitutions is in the organization of the executive power.

The Swiss President serves for only one year, and is elected from the seven-man Federal Council, comparable to the cabinet in the U. S. The right of presidential veto is replaced in Switzerland by the legislative referendum — or popular veto.

Security Through Army

That Swiss freedom remains so solidly secure is attributed to a large degree to her citizen army. Universal military training enables Switzerland to have the largest army in the world on a per capita basis. A force of 250,000 men can be mobilized overnight, 500,000 within 48 hours. Every able-bodied Swiss from 19 to 48 is subject to military service, and each soldier keeps his rifle and equipment with him at all times.

During the last war, the Swiss built an amazing network of modern fortifications that honeycomb the Alps. And the three great Alpine tunnels — the Simplon, Loetschberg, and St. Gotthard — at the heart of the continent's rail communications system, give Switzerland a highly strategic position she is determined to protect.

About half the size of the state of Maine, Switzerland has 4,450,000 people speaking four different languages. German, usually spoken in Swiss dialect, is the native tongue of 72 per cent. French is spoken by 20 per cent, Italian by six per cent, and some 45,000 speak regional language derived from ancient Latin.

Fire Threatens Town of Bonanza

KLAMATH FALLS — (AP) — Fire Tuesday night burned a frame residence and for a time threatened the entire business district of the Klamath County town of Bonanza, 30 miles east of here.

The blaze started in the residence of Ishmael Dick, which was flattened by the fire. It then jumped to the Oasis Taven nearby, burning the roof and charring the walls. Roofs, walls and windows of the adjoining Hickman Hotel and Odd Fellows Hall were damaged before the blaze was brought under control by the truck and crew from the Liskey Ranch nearby.

Chinese Get Anshan City

PEIPING — (AP) — Government troops pushing open a corridor to the sea from beleaguered Mukden Wednesday captured the coal, iron and steel city of Ansham, official dispatches claimed.

Anshan is 55 miles south of Mukden on the railway to Yingkow, supply port on the Gulf of Chihli.

The dispatches added that repairs on the rail line betwen Anshan and Mukden, were being rushed.

William Iddings Bronson

New York Markets

NEW YORK, July 21—(AP)—The stock market lazily extended Tuesday's rally today. Prices still had a considerable distance to go, though, before the heavy losses suffered in the Thursday to Monday break were wiped out.

Quotations were marked up fractions to more than a point before selling opposition was encountered.

Volume slackened after a fast opening and on numerous occasions the ticker tape came to a complete stop. Turnover for the day was running in the neighborhood of 1,200,000 shares.

Among the gainers were Nickel Plate Railroad U. S. General Motors, Standard Oil (NJ) Union Pacific, N. Y. Central, International Harvester, Curtiss-Wright, Kennecott Copper, American Telephone, and St. Regis Paper.

Wheeling & Lake Erie common jumped 7 points on a single sale.

Railway bonds tended higher while U. S. governments held steady in the over-the-counter market.
