

**Seneca Road Taken
To County Network**
The Southern Pacific road runs north from the old Elmira mill to the mills in the Seneca area. The road has been designated for a city road by a resolution of the county court Friday according to P. M. Morse, county surveyor. Signs were posted Saturday of the county's intention to bring the road to county standards and a hearing before the county court of persons interested has been scheduled for Sept. 1. Commissioner Allen Wheeler pointed out that the road is only a 40 foot right-of-way and will

**Firemen Put Out Burning Grease,
Answer Seven Other City Alarms**

Mrs. T. A. Barrys received first degree burns on her back, arms and face Friday evening when grease spilled on her stove caught fire. Firemen said Mrs. Barrys made an all-too-common mistake when she poured water on the blazing grease. Instead of extinguishing the flames, the water turned to steam and caused the burning grease to splash onto her kitchen walls and floor. **Minor Damage** She was treated as an out-patient at the Eugene Hospital, and damage to her apartment, No. 52 Airport Homes, was confined to blistering of the paint and loss of curtains in the kitchen. **Fire Marshal Lester Barker** commented after the fire that especially during the canning season when paraffin fires are common—and at all times when deep-fat or grease is used in cooking—housewives should take care to have a lid handy with which fires can be smothered in cooking utensils. Paraffin can be safely handled, he said, if a double-boiler is used. Spilled grease or paraffin, Barker added, should be smothered with baking soda or salt. Water should never be poured on these materials when afire, and ordinary kitchen flour will not smother them. Flour, Barker warned, is inflammable, itself. **Seven More** In addition to the Airport Homes fire, at 7:21 p.m., city firemen answered four other blazes Friday and three more Saturday. At 10:53 a.m. Friday a crew went to Thirteenth and Mill to extinguish a car fire started by shorted wiring; at 2:16 p.m., firemen stood by a rubbish fire at 3:12 p.m. another rubbish fire was kept in control at 590 29th Ave. W. The final Friday fire came at 9:56 p.m. when paraffin caught fire on a stove at the Tiny Tavern, 394 Blair. Firemen reported that this blaze did slight property damage. **Grass Fires** Saturday's list included two grass fires. At 11:16 a.m. the fire was controlled at 2739 Portland, and at 1:04 p.m. the second was reported from the 2000 block on Seventh Ave. W. Firemen were kept busy 35 minutes in quelling the second blaze. A flue fire also was reported Saturday at 2:32 p.m. This alarm came from 511 Lawrence St.

**Posthumous Bronze Star
Awarded Captain Childers**

A posthumously awarded Bronze Star belonging to Capt. Donald T. Childers, son of Mrs. Velma Childers and the late Dr. S. Earl Childers, was awarded the captain's brother Maj. Earl G. Childers last week at Camp Campbell, Ky. Capt. Childers was captured by the Japanese in the Philippine Islands and served through the "Bataan Death March" before his death on a Japanese prison ship which was sunk in the China Sea in October 1944. U.O. Graduate A graduate of the University of Oregon, Capt. Childers entered the Army in July 1940, and sailed for the Philippines in March 1941. He commanded a company of Philippine Scouts until he was captured in the Bataan campaign. The Bronze Star award, which was presented by Maj. Gen. P. W. Clarkson, commanding general of Camp Campbell, was in recognition of Capt. Childers' work as a substitute medical officer in the Cabanatuan prison camp where he collected all available drugs and set up an emergency hospital. **Camp Shows** There was no regular medical officer in the camp. In addition to this, the citation recalled, Captain Childers took part in many camp shows, and was instrumental in keeping the morale of the camp at a high level. The citation also spoke of "his initiative, inspiring courage and devotion to his fellow prisoners." Maj. Earl Childers, to whom the medal was presented, is a veteran of the New Guinea and Philippine campaigns. He is now an ROTC instructor at the University of Indiana, Bloomington, Ind.

**THE NEWEST DEVELOPMENT
IN QUALITY RING CONSTRUCTION IN 100 YEARS!**

LARAWAY'S
DIAMOND RINGS WITH THE EXCLUSIVE NEW **Feature Lock**
PREVENTS RINGS FROM SHIFTING...KEEPING THEM LINED UP AND LOOKING THEIR LOVELIEST
Now you don't have to worry about your wedding band shifting and twisting away from your matching engagement ring. This ingenious new locking device keeps them together, looking their best. Rings may be worn separately if desired... nothing sticks out to tear gloves or hose. Prevents loss of diamond from wear. Easy to put together and take apart. And this patented feature is yours at no extra cost. Come in and see it for yourself... today!
Prices include Federal tax.

**Talk Carefully
Around Mills**

An assistant professor of English in the University of Oregon is going to track down and hodgepodge the oddities of Oregon speech. The American Dialect Society has appointed Assistant Professor Randall V. Mills as director for the state. He will collect and study the provincialisms and proverbial statements that roll off the average Oregonian's tongue every day. Mills will be taking part in a national study. The objective is the publication of a dictionary of American speech.

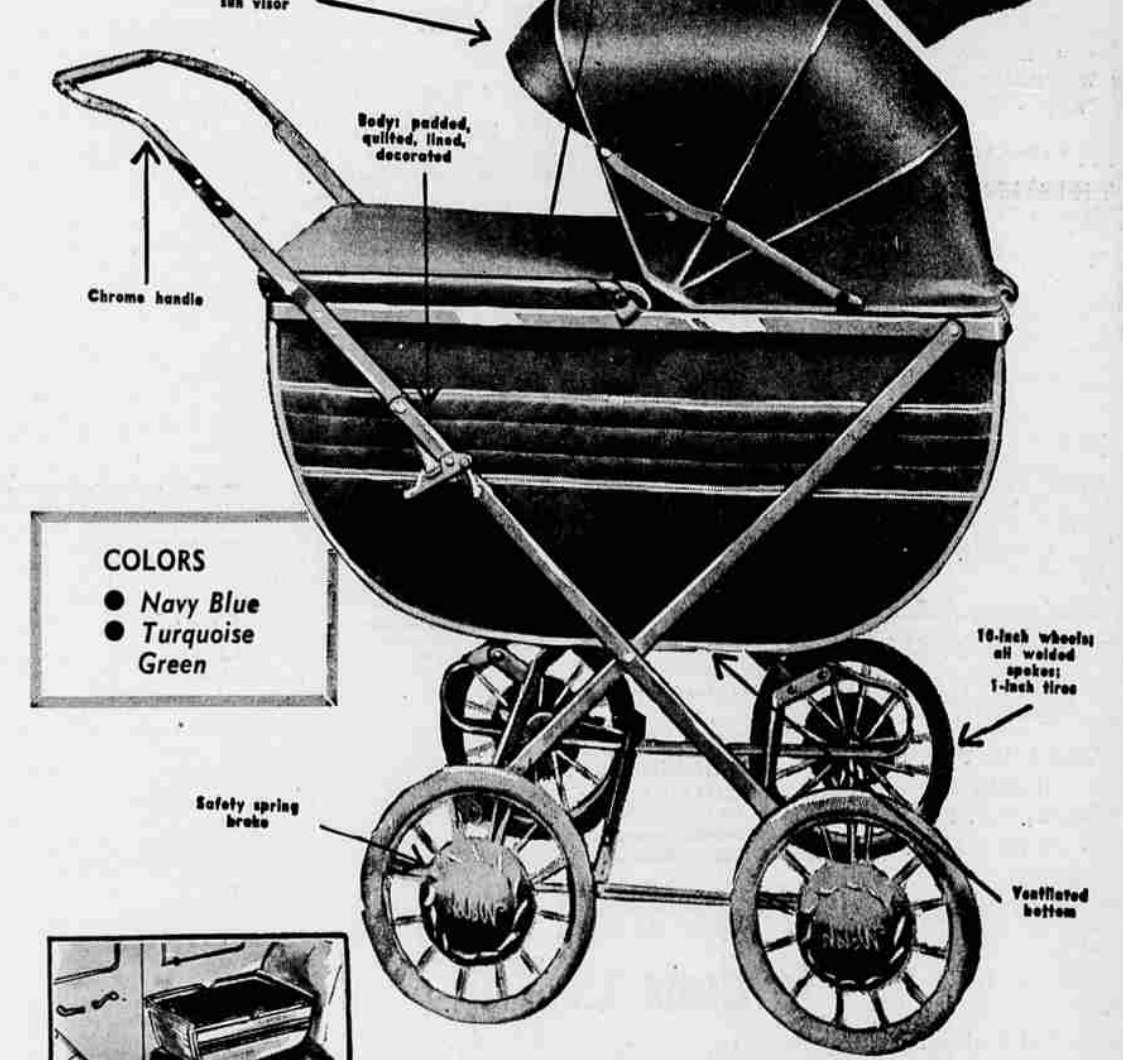

**University Scientists
At Oak Ridge Meet**

Two University of Oregon scientists, two from the medical school in Portland and one who will be on the staff of the university this fall are among the eight from the state to attend the four-week course in the techniques of radiolabels in research beginning in Oak Ridge, Tenn., Monday, Aug. 2. University personnel includes Drs. A. L. Soderwall and Donald F. Swinehart. Drs. Edward S. West and John T. Van Bruggen are attending from the university medical school. Dr. Raymond T. Ellickson who will be on the campus this fall is going from Reed College. The Oregon institutions are cooperating with the Division of Biology and Medicine of the United States Atomic Energy Commission in a fellowship program. Eleven other institutions are participating.
