LONDON—(AP)—Tourism was the number one item of Britain's export trade with America in 1947. More than 78,000 American visitors to Britain spent \$37,000,000 in their travels here.

In its annual report, Britain's chief "come to Britain" publicity organization, the 20-year-old Travel Association, revealed 390,000 tourists paid out \$12,000,000, including transport fares for their last year's vacations. The tourist dollar income netted from the United States exceeded that from textiles, chiefly because tourist money was not wasted on the buying of raw materials.

Compared with immediate pre-war years, foreign visitors in 1947 reached 81 per cent of the average pre-war total. The largest numbers came in the three summer months of June to August. Few Americans staying more than a fortnight, against an average holiday jaunt of three weeks in 1938-39.

Nations Respond

Twice as many Belgian tourists came to Britain last year than in pre-war years. There were more than 84,000 French visitors and 58,000 Dutch. The only drop in the number of tourists was reported from Scandinavia and Switzerland.

ever sewerage system is installed. At a meeting last week, it was the opinion of several speakers that the sewers would cost about the same, no matter who puts them in.

Two Views

A number of the residents who are resisting the move to seek annexation hold that becoming a part of the city will cost more in taxes.

Those who favor annexation point out that the saving in reduced utility and other costs will more than offset the small (about 19 mills) increase in tax. Outside the city, electric rates go up 10 per cent, water from 10 to 20 per cent, and fire protection costs are paid by the householder.

### Brother of Victim Gets Search Credit

Keith Williams, brother of one of the victims, deserves the credit for spotting the location of the Aug. 3 crash which took the lives of two Wyoming men, according to Deputy Coroner Fred Buell.

Williams spent \$300 of his own money renting planes to hunt for the wreckage which contained the body of his brother Earl and of Edward Suppes. Previous reports said an Army plane was first to spot the site from the air.

Buell said Williams noticed three broken tree tops which indicated the crash site, but came back to get gas and bring the area more closely. Army pilot received directions from him and checked the area while he got ready for another trip.

A body must create two if it is to fly; lift to overcome gravity, and forward prop...

### Sewer Hearing Interest Seen

SPRINGFIELD—Reports of need for more room when the council holds its hearing on the sewer-user assessment increase Aug. 23 are being considered by city officials.

Highlight of the regular council session is the plan to raise the present rate from \$5 to \$12 per year. It is expected to draw a record audience. The city hall building on Main St. can barely hold 25 now, and only seats about 20 persons.

State Directive

Council discussion of the raise stems from the state directive that some measures be taken toward establishment of a sewage disposal plant.

The present practice of dumping raw sewage in the river has been condemned as "highly dangerous" by sanitary officials.

Revenue Need

To secure bond sales for the project, revenues from the sewer-user assessment must be raised, according to the city attorney.

A previous council session drew hall-filling crowd and the new hearing was announced for Aug. 23 to secure a larger public reaction.

**HOME EDITION LYONS HOME FREEZING NEWS VOL. 1 NO. 8**  
MONDAY, AUGUST 16, EUGENE, OREGON

**GOOD NEWS IN THE MEAT MARKET**  
Lyons Weekly News Service, August 16 — The price of meat, for some reason or other always depends on other factors. If those factors go hay wire, consequently our predictions are wrong. But from all sources, meat should go down 15% by October. There seems to be a pretty big crop of grain this year, the price will go down and so will meat. That's all we have to go on, but in previous years that has more or less been the result.

**PEACHES ARE PEACHY-KEEN**  
Although Rochester peaches do not make good freezing, they're on the market this week at a low price. Rochesterers are a quick to come, quick to go variety, and they're not expected to last much after ten days. Alberta peaches will be available by the fifth of September and last until the 15. Havan, Slappy, Valer and a few other freezing varieties will be available around the 20 of August at a low price.

**VEGETABLES ARE COMING IN**  
The biggest freezing item right now is beans. All kinds of green beans are all over Eugene. They'll probably be around for the next month.

The varieties for best freezing results are Kentucky Wonder, Tendergreen, Full Measure, Stringless Green Pod, Blue Lake, Round Pod Kidney Wax. Remember when you sort the beans for freezing, always choose only the young and tender. After washing and cutting to desired length, usually about 3/4 inch lengths, blanch the beans from 3 to 4 minutes, cool quickly, drain and pack in freezing containers. Remember always put your name, the date, and the frozen food on the container.

There's a greater demand for peas now, probably because the crop is just about over. The price will absolutely go no lower. The freezing varieties for peas are Thomas Laxton, Improved Gradus, Astor, Improved Record, Strataheim, and Alderman. After shelling, sort out large, hard, starchy and split peas. Remember the frozen food will be no better than the food in it's original state. Blanch from 1 to 1 1/2 minutes. Cool immediately, drain well and pack 1/2 inch from the top of your freezing container.

No other time of the year are beans so plentiful than they are this month. It's a staple vegetable and only proper that the price should be also. For best freezing varieties, buy Detroit Dark Red, or Early Model. Cut off the tops and scold the beans. Dice or slice the beans into 1/2 inch cubes, then blanch from 2 to 3 minutes. Cool quickly, drain and pack the vegetable in freezing containers.

As soon as the weather turns cold, by cold weather mean 60 degrees or thereabouts, spinach will drop in price. Whenever that will be, well, your guess is as good as the man in the market.

The price of local corn will drop in a very short time, probably in another week or so.

The home freezer you want is the one that will give you the most dependable service. When you buy you'll agree the G. E. Home Freezer is your best buy at any price. See it tomorrow on display at Lyons.
