JC Schools' Bus Routes

JUNCTION CITY — With the consolidation of the schools voted for, the bus schedule will be worked out the best way possible. The tentative schedule is: Route 1—Out Highway 99E to Lancaster, then up to the school, back to the corner and follow the Lancaster loop around until the bus enters the Northrop district. Then back to the Lancaster school road and over past Yagers to the Harmony school on Highway 99W, up to the Lane-Benton Park and then re-trace back to Ferguson Road, then west to the Hulbert Lake road, then north to Straums place at the lake, then retrace to the Ferguson road then south from that corner one mile, then east to the old highway and south into Junction City.

Route 2—The bus will turn around at the State Park at the Goldson line and then back toward Junction City to Cheshire then north to the High Pass Road then west to the Union Laurel Home district lines, then retrace to Junction City on the High Pass road.

Route 3—Bus will start at Bob Mannings on the High Pass Road about three miles up from the Union School, turn at the corner near the Union and Laurel Home districts and go south past James home and then continue through the Swamp district to the corner into Franklin, the bus will then go to Franklin school and will follow the lower Fern Ridge district road over to the corner that turns north to the Harpole corner, continuing north through the Harpole district to the High Pass road, then directly into Junction City.

Route 4—Will be into the Oak Grove district south of town. One of the early buses will make a second pickup to bring in these students. The route will be about the same as the one that was used last year with the exception of the Alvaldore route.

The program will provide bus service for children in grades one to eight from Harmony and Laurel Home; other districts that were in the Junction City Grade School last year will be continued; seventh and eighth graders from Swamp and Franklin districts will come to Junction City, while grades one to six will be housed at Franklin School; seventh and eighth grade students from Union will be transported to Junction City while grades one to six will be housed in Union district school. At Lancaster all of the seventh and eighth grade pupils will be transported to Junction City, and similar transportation will be furnished for first through eighth grades for Goldson district.

Lunch Problems

The crowded conditions will cause a lunch problem in Junction City so the first and second grades will be operated in two shifts. The first graders will meet at the Christian Church, all rural students will come on the morning bus and will be through at noon to go home by bus. All city first graders will come to school at 1 and will be through at 4 at the Christian Church. No transportation will be furnished for the afternoon first graders. Second graders will operate the same, the rural students during the morning and the city students the afternoon. The second graders will be housed in the Parish Hall of the Lutheran Church. This arrangement was made for the first and second graders because they are able to cover their required course of work in a half-day program. It will also enable the students to have lunches at home. Because of the two-shift set-up, the teachers of the first two grades will have smaller classes and be able to give these beginners the personal attention they need. Also the general upkeep of the temporary units will be much lower with smaller students using them.

Warne Empey, principal, will register the high school students at the high school office for bus transportation. The high school students will not be picked up early in the week until the loads are checked and it is determined how many can be accommodated.

Mr. and Mrs. William Campbell spent Wednesday and Thursday at Tangent with his father who was recently seriously injured.
