Backache, Leg Pains

May Be Danger Sign
Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 quarts a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging headaches, rheumatic pains, leg

Buying Fish Cheaper Than Catching Them

RACINE, Wis. — (U.P.) — A Racine wife who prefers that her name not be used tells the story.

Her husband was ready to go fishing and stood amidst his gear.

His equipment included an outboard motor, \$150; rods, reels, lines, hooks, plugs, bait bag, fishing clothes, boots tackle and accessories, \$140; license, \$1; total value, \$291.

Still to be figured was the cost of gasoline for the trip, boat rental and live bait.

His wife went to the telephone and called a number.

"Hello, how much is your pike?" she asked.

"H'mmmmm, no. I don't want any delivered, thanks."

The fisherman's wife did some calculating. The cost of the trip: about \$325. The last time the angler came home he had only 12 fish.

It cost only 60 cents a pound at the fish market.
