

Participation in North Atlantic Believed of Short Period

STON — (AP) — The Defense departments of the United States and the United Kingdom have agreed that the North Atlantic security pact would be of limited duration, learned Thursday.

Officials now are thinking of a pact that would solve problems in the future, perhaps up to 50 years.

It was emphasized that final agreement would not be reached until the regional alliance between the United States, Canada and the five western European nations was complete. However, it was indicated that this pact does not intend to negotiate like a 50-year treaty for col-

COLGATE'S FAB WASHES EVERYTHING

ALL FAMILY LAUNDRY AND DISHES

Ancient Murder Rite Uncovered

BRIGHTON, England — (AP) — Scientists have uncovered the strange story of the ritual murder of a woman by savages 35,000 years ago, before the last ice age.

Her skull was found buried ceremonially under hundreds of tons of rock in a cave near Whaley, in Derbyshire. Pigmies appeared to have scooped out the inside of the woman's head and eaten the brain, according to A. L. Armstrong, who unearthed the remains.

Armstrong, in relating the story of the "Mysterious Lady of Whaley," said her skull had been pierced by spears and she had been beheaded.

"The woman lived before the last ice age and she may have been a chieftainess or a witch doctor," Armstrong said. "She had been beheaded and her skull was buried in a box formed by rock slabs."

"It obviously was a ritual murder."

Armstrong added that the skull had five squared holes, probably made by a bone or stone spearhead, and the bone of the skull was splayed inwards.

Sir Arthur Keith, one of the great living authorities on ancient man, said the woman was aged 50 to 55. Her skull had been broken into 68 pieces and was restored and photographed after six months.

The rest of the woman's body was not found.

Kids Taken Out Of Berlin Area

BERLIN — (AP) — German welfare authorities announced arrangements have been completed for nearly doubling the rate for evacuating children from blockaded western Berlin to 700 weekly.

The evacuation is voluntary and designed to spare the children the hardships of a blockade winter in the fuel-short western sectors. They are being flown by British aircraft to western Germany.

Authorities said similar arrangements were being negotiated to fly out aged and sick western Berliners.

Meanwhile the Russians gave their blockade another turning of the screw. They announced that henceforth parcel post service between western Berlin and western Germany would be stopped.
