

President's Plan for Backward Countries Has Auspicious Start

By DEWITT MacKenzie
of Peace Affairs Analyst

WASHINGTON (AP)—The plan for the Atlantic by the Truman administration has been greeted with enthusiasm and with which the idea has been seized on by the press. Already the vast areas of Africa and Asia have been offered for this historic project. Other nations may be added to the list.

Prices Flattened Late '48 Slump

WASHINGTON (AP)—Farm prices flattened out in January after a 13 percent drop in December. The average price of farm products was 268 per cent of the 1909-14 base period, the same as a month earlier.

According to the Department of Agriculture, the price of farm products was 268 per cent of the 1909-14 base period, the same as a month earlier.

The general price level in the economy was unchanged, however, by the time the price of farm products was 268 per cent of the 1909-14 base period, the same as a month earlier.

Quorum Board Has First Meet

PORTLAND (AP)—Oregon's liquor commission plans to hold its first meeting in the immediate future.

Three new commissioners were named in the announcement in their meeting here Friday. Chairmen W. H. Hogg, Salem; W. A. Hogg, Klamath Falls; and W. Reed, Eugene, posted bonds of \$25,000 each.

White House Repair Costs Have Gone Up

WASHINGTON (AP)—It may cost \$100,000 instead of the originally estimated \$10,000 to repair the White House.

Mr. E. A. Tamm, director of the White House, said that the cost of repairs by saying it costs three times more to repair a building than it does to build it.

Un-Hi News

The March of Dimes Drive was sponsored by the Hi Y during the past week. In a contest between the boys and girls to see which sex would contribute the most, the boys were the winners.

A megaphone was placed in the front entrance hall into which the students tried to throw coins. About \$21 was collected for the March of Dimes. Len Frank headed the committee that planned the drive.

White House Repair Costs Have Gone Up

WASHINGTON (AP)—It may cost \$100,000 instead of the originally estimated \$10,000 to repair the White House.

Mr. E. A. Tamm, director of the White House, said that the cost of repairs by saying it costs three times more to repair a building than it does to build it.

Un-Hi News

The March of Dimes Drive was sponsored by the Hi Y during the past week. In a contest between the boys and girls to see which sex would contribute the most, the boys were the winners.

Radio Station Extorts Dimes In Song Battle

ELKO, Nev.—(AP)—Radio Station KKKL began a March of Dimes fund raising stunt Saturday that has local radio listeners frantic.

At 1 p.m., the station began playing Dennis Day's recording of "Clancy Lowered the Boom." It was announced that the record would be played continuously until listeners who wanted it smashed outbid those who wanted to hear more about Clancy.

At 4 p.m. (PST), Clancy was still lowering the boom and the March of Dimes fund stood at \$208 to keep it going and \$201 to stop the record.

Adding to the fun was this feindish fact: during the day, the local radio station is the only one Elko (pop. 5000) radio listeners can pick up.

Ellsworth Asks Filbert Study

By Charles D. Watkins

WASHINGTON (AP)—Rep. Ellsworth (R-Ore.) asked the House Ways and Means Committee Friday to consider the problem of filbert growers in the Northwest in acting upon the reciprocal trade treaty program.

He said the growers have spent 10 to 30 years in establishing their business in Oregon and Washington and fear the administration will lower duties in foreign filberts and related nuts.

He told the committee in a prepared statement "the administration of the law has been consistently in the direction of lowering rates without regard to injury to the industry affected."

"Filbert growers in the Northwest find themselves in this critical position," Ellsworth said. "Before the war they received about 30 per cent more per pound for their crop than they are receiving on the current market."

"During the war they received more than double the present price."

"Following the war, under reduced tariff rates, imports jumped more than 400 per cent."

"Meantime labor costs have increased 300 to 400 per cent."

"Many growers made no profit last year or lost money and many are losing money this year."

"The continuation of the present policy can lead to only one result, the abandonment of the industry and the loss of large investments to farmers of my district and the Northwest."

The committee has been hearing testimony on proposals to extend the reciprocal trade treaty program.

Maybe the Civil War Hasn't Ended Yet

OSHKOSH, Wis.—(AP)—Flier Steve Wittman has been informed his ship was put out of commission temporarily in Tennessee this month through "regrettable" action by a unit attached to the "Confederate Air Force."

But Wittman now has assurances from Southern brass that it won't happen again if he displays the emblem of the "CAF" prominently on his craft.

Wittman, flying home after winning the small plane trophy in the Miami air races, was forced down in Tennessee Jan. 22 by a 22 caliber .161 in. bullet fired into his gas tank.

Wednesday night Wittman said he had received a letter from Greenville, Miss., signed by J. B. "Commander of the Second Confederate Air Force, Mississippi Wing."
