Student-Faculty Meet Will Discuss Jobs

A student-faculty conference has been planned for Thursday by a five-man committee of University of Oregon officials. Representatives of several state agencies are scheduled to meet with the university people to discuss job opportunities in the various state agencies.

State civil service from the State Highway Commission, auditor's office, Fish and Game Commission, and other state agencies will be present.

Karl W. Onthank, director of the graduate placement service at the university, said the purpose of the meeting is to inform students—both men and women—of opportunities for professional level work with the state. An additional service to students will be the opportunity to determine what type of state work is available so they can plan their college program.

Set 'em Up For Polio

"All I did was tell 'em the proceeds for the next hour would go to the March of Dimes," Ben Snyder, proprietor of the Oasis Tavern, said Saturday in telling how his establishment raised more than \$50 in an hour one night last week.

Determined to do more than just chip in with a few dollars, Snyder, who prides himself with running the "kind of place you can bring your wife to," earlier in the week put out the word that beer sales would go to the polio fund. Then at 8 p. m. his bartenders made the announcement. Money and refreshments flowed freely and the money added up.

"The success this year means we'll do it again next year," Snyder declared.

Any Unused Pianos in Eugene? City Schools Request Them

Has your piano been used lately? Or is it, like many, just collecting dust and old pictures off in a corner somewhere?

Byron Miller, supervisor of music for the Eugene School system, has a very definite use for any pianos he can obtain, and, in fact, is about to conduct a drive for the instruments.

"No piece of school equipment so enriches the lives of the children as does a piano," explains Miller, "and every building in our school system could use at least one added piano—some should have several more."

Miller explained that an always over-taxed school budget can never hope to supply completely the needs of all department of a school. So he has proposed a "Piano Hunt" to discover where old pianos or reed organs can be spared by their owners, either on a loan or donation basis. Such a donor, Miller says, would be assured that his instrument will be given good care, and will be returned to him on 30-days notice.

Interested persons can contact Miller by calling him at Eugene High School.

Announcing Our Appointment As Dealers For **"ROTOTILLER"**

... In Seed Beds Prepared by ROTOTILLER
 POWER TILLER OF A HUNDRED USES!

No crop can be any better than the seed bed that feeds it. And no other type of tool can make seed beds as fine, as rich, and as moisture-conserving as this rotary tiller. Here are the reasons.

Only this modern method breaks up and pulverizes both soil and humus and mixes them so uniformly, making a rich mulch just as shallow or as deep as you want it. It works in the driest, hardest soils, or in ground too gummy to yield to the plow. It makes a finer surface mulch, capable of absorbing and retaining moisture. It does all of this in one simple operation. Come in, we will gladly explain the many additional uses, both with and without various specially-designed attachments, for ROTOTILLER—Power Tiller of a Hundred Uses.
