Shoes Is Grooming

By Alicia Hart
A good care of your shoes as you do your dress is a simple rule of good grooming. Many girls overlook the importance of their shoes or to wipe off gold or to go to a party before their shoes are properly shined. Girls who take pride in their appearance should be given a good shoe shine before they go to a party. A good shoe shine will make your shoes look better and will protect them against dampness. A brass-brush shine will help to resist the effect of overmoisture or rain during snowy weather.

ELECT HONORED
A pre-nuptial show given for Miss Tootie Russell, who is to be married to Don Gee, at the home of Mrs. Don Baker Thursday. She received many gifts for her new home. Baker served ice-cream, and punch to the twenty present for the shower.
