Thefts Plague City Police

Eugene police were confronted with five cases of larceny Saturday following a busy day of thievery, Friday.

A painting was stolen from Susan Campbell Hall on the U. of O. campus, probably Thursday night. Police said that it was a painting of Mrs. Campbell, wife of a former president of the university, and was highly valued. It was believed to have been a campus prank. The hall is unoccupied during the summer months and the thief or thieves opened a window and had easy access to the picture.

Jackets Stolen
A salesman staying at the Eugene Hotel Thursday night reported to police that someone broke into his car behind the hotel and took 3 jackets used for demonstration purposes.

Four tires and wheels were removed from a "concrete buggy" at the Eugene Sand and Gravel Co. some time during the week. They were valued at \$100 and the manager said that they could not be used on a truck or car.

Fur Coat Missing
A fur coat valued at \$595 was stolen from The Butik, 1080 Willamette St. Friday morning. The manager reported to police that it could have been taken during the busy hours when the clerks were all occupied.

The last reported case involved a 32-foot ladder owned by McGinty-Riggs Electric Co., 1194 Willamette St.,

Save Fuel

A MODERN HEATING SYSTEM WILL

- SAVE YOU MONEY
- ASSURE YOU COMFORT
- GUARD YOUR HEALTH

Fuel is going to be scarce again this winter. Now's the time to guard against shortages by installing a fuel-saving Crane Boiler. Crane Boilers are designed to extract the maximum amount of heat from the fuel you burn; and their modern design and construction assure you every heating convenience.

If you are tired of wrestling with an old, worn-out boiler—if you are tired of cold, unevenly heated rooms—call us. We will diagnose the trouble and recommend the correct solution. We are in a position to supply a complete heating system or make the necessary changes, to bring your present system up-to-date.

CRANE TWENTY Boiler
for steam or hot water. Improved ceiling heating surface and controlled water travel assure maximum efficiency. May be installed for hot firing—later converted to oil or gas. Attractive green jacket is heavily insulated and has baked enamel finish.

CRANE FOURTEEN Boiler
An extremely compact, highly efficient boiler. Wet base construction permits installation on wood floor. May be installed in homes without basements. Burns coal, coke, oil or gas. Heavily insulated jacket has baked enamel finish.
