Looks new! Feels new! IS new - through and through!

It's the new Buick SPECIAL - new in line, new in size, new in price and value!

YOU take a look—and your fingers itch to get hold of its waiting wheel. You cast an eye over its gleaming new bumper-guard grille, its tapering fenders, its jet-plane lines—and know that this is what others have been groping for.

You slip inside. Twelve inches added to rear-seat cushions emphasize the biggest interiors you can buy for the money. A broad, curving windshield set in narrower corner posts means a better view any way you look.

Now touch the throttle. Not just high compression power, but high-pressure Fireball power, to get the most from today's fuels today!

You finger the controls—not just standard transmission alone, but the magic smoothness of Dynaflo Drive* at your option.

Try it in traffic—and less length bumper-to-bumper makes it a dream to park or handle. Try it on the road, and seats placed ahead of the rear axle add even more comfort to that unequalled Buick ride. So you say, "How much?"—maybe bracing yourself mentally.

Then you learn that price is part of the good news too! Figures fit the modest budget as this handy-dandy fits the modest garage—and you get room, power, ride, and the smartest look on wheels at the lowest price you'll find on any valve-in-head eight!

So you size it all up with a happy "Buick's done it again!"—and see your Buick dealer quick as you can.

After all, the quickest way to get one of these into your garage is to get a firm order in!
