ANN CONNELL Society Editor

The Register-Guard regrets that the story on "The School of Politics" appeared in yesterday's issue without a date. The "school," sponsored by Republican groups, will be Friday, Jan. 25, at the Eugene Hotel. A mistake in scheduling caused its premature appearance.

Former members having music at home are reminded to turn it in at the Monday meeting if possible, as an inventory is being made of all music in the library. Steel cabinets have been purchased to hold the copies, and arrangements have been made for keeping it at the Y-Center. Previously it had been stored in the home of Miss Maud Densmore, late chairman.

Painful cramps of "Monthly Periods" stopped or amazingly relieved

In 3 out of 4 cases in doctors' own tests!

Women and girls who suffer from those functionally-caused cramps, backaches and headaches of menstruation—who feel upset and irritable on certain "particular days"—may often be suffering quite unnecessarily! Such is the conclusion from tests by doctors in which Lydia E. Pinkham's Vegetable Compound gave complete or striking relief from such distress in 3 out of 4 of the cases tested! Yes! Medical evidence shows Lydia Pinkham's thoroughly modern action, it cures a remarkably calming effect on the uterus—without the use of pain-deadening drugs! The effectiveness of Lydia Pinkham's needs no proof to the millions of women and girls whom it has benefited. But how about you? Do you know what it may do for you? Take Lydia Pinkham's through the month. See if you don't get the same relief from the pains and weakness of "those days." See if you don't feel better before and during your period! Get either Lydia Pinkham's Compound, or new, improved Tablets, with added iron! If you're troubled with "hot flashes" and other functional distress of "change of life"—you'll find Lydia Pinkham's wonderful for that, too!

Alice Marie Home Faces New Year With Optimism

At the quarterly board meeting of the Alice Marie Children's home, it was announced that the deed of ownership of the home now is complete. The larger portion of the \$10,000 legacy left the home by Max D. Tucker, Portland lumberman, has been received, it was reported. This has enabled the trustees to pay off assessments against the property, for paying on the south side, also to pay a note.

A ditch along the north line of the property has been cleaned and widened, the report stated, eliminating overflow. Two loads of gravel were donated by the Lane Gravel Co., and were used to fill in the roadway to the house.

The upstairs rooms and the living room and dining room downstairs have undergone redecoration. Miss Myrtle Borbe, home

superintendent, has just returned from a vacation, her first in several years.

Due to several children leaving for their own homes, after making their residence at the Alice Marie Home for more than five years, the home is open for a full quota of children, ages 3 to 14 years, Miss Borbe stated. She de-assests against the property, for paying on the south side, also to pay a note.

Alice Marie Home is located at 1166 E. 28th Ave., and visitors are invited at any time.

Ten directors were present at the meeting. Edwin Cone is a new member of the board.

Budget a New Home From Old

Countless young couples starting married life new year. Not many can start out in a new house or shiny, modern apartment. But they can come from scratch if they have a little ingenuity. Here's a list of four articles that help solve the problem.

Average young couple, married means starting life anew. It means finding a new home, a new apartment, a new way of living. It means, in other words, a new budget. A budget is a plan for spending money. It is a plan for getting the most out of a limited amount of money.

The small room of the living room had been painted an ugly shade known as tenement tan. A narrow strip of mirror had been fastened to the closet door. To the left of the closet, on the same wall, was a recessed doorway that had been blocked up. It led, formerly, to the foyer.

To top everything, this room which they wanted to use as a study, was only 8 by 9 feet. Somehow, it must be made to look larger.

The kitchen was microscopic, L shaped and littered with small metal cabinets placed at the wrong heights. It was painted a dingy, hard yellow. Directly off

ERA HANSEN
Grandmother
A block of each other field of Jan. 3 when Mrs. Peterson celebrated her 90th birthday. Mrs. Peterson, a head-start on Mrs. Hansen, will observe her 92nd birthday. They are both well and happy. Mrs. Peterson has ten grandchildren and 16 great-grandchildren to help keep her young.

A daughter, Mrs. G. A. Hathaway, living in Washington, D. C., sent a telegram of congratula-tions.

Mrs. Peterson has a youthful appearance, with but a single lock of white hair gleaming from her brown hair. A small woman with a ready smile and twinkling eyes, she attends the Quilters group of the Springfield Christian Church.

In the very next block is the other nonagenarian, looking forward to a 93rd birthday May 22. Mrs. Elizabeth Owen was born in Texas and lived at Elkton for 65 years before coming to Springfield. She lives alone, next door to a granddaughter, Mrs. John McMichael. Mrs. Owen gave no prescription for a long life, but it is perhaps significant that she was reading a seed catalogue when the reporter called.

Both of these ladies are interested in other folks and affairs around them.

At left is Mrs. Nancy Peterson, also a new nonagenarian, whose birthday was Jan. 3. Story of her dinner party, her pioneer life, and philosophy appears in the accompanying article.
