Blue River Tells Bad Weather Woes; Citizens Thanked

BLUE RIVER—We had about 20 inches of snow over the past week, leaving our streets and roads in questionable condition, however, we have public spirited citizens to thank for their fine condition now.

CECIL SNYDER came through with his jeep, which he had equipped with a blade on the front. He opened our streets and parking area, so that those coming to the show did not need to worry to much about getting stuck in a snow drift. He went through again several times while it was still snowing.

Tuesday after it began to rain, Vic Purdy cleared the road entirely with Fred Hehm's grader. All of this was done gratis and we surely say a big Thank You and so does everyone else who lives on or travels over our Blue River streets.

WE EXPECTED plenty of power failures, but as far as we know, only one large tree was brought down on the power lines by the heavy snow. Power was disrupted only a few hours, although our REA man put in 44 hours continuous work without rest to keep our electricity coming through. The fog and rain has left us with four inches of snow and "goobs" of water. All roads are again passable with care.
