THE CAMERA CORNER

by LYMAN COBURN

It's time for flowers. And you camera enthusiasts are probably "catching" the brilliant spring scene as it is on a camera. We have a few tips that will help you get better results from your camera. So go on, try to get many things into your pictures. If you're shooting a panoramic scene, concentrate on a single area. Second... use proper lighting. Shoot in the morning or late afternoon to get the slanting light. Shadows are important to the contour of the scene. Don't shoot down on the scene... catch them from the side to bring out their full beauty. You'd view them at a flower.

Portrait attachment for your camera will enable you to move in and catch some excellent flower shots. A tripod will also be a big help along with some of the filters we mentioned last week. And if you need technical assistance, drop in and talk to us. We'll be the time to stock up on camera film... so you can catch the interesting outdoor shots. Have your camera ready and loaded when you need equipment or advice... come in and talk to us at COBURN FILM SHOP, 7th & Willamette. Phone: 2-1111.

State Tax Income Shows Increase

SALEM (AP)—Oregon state income tax collections have increased so sharply that the 1953 Legislature's budget headache will be considerably eased, the Legislative Interim Tax Committee was told by the State Tax Commission this week.

The Tax Commission estimated that income tax collections for the year ending July 1 will total \$62 million or \$12 millions more than the 1951 Legislature estimated.

Gov. Douglas McKay told the interim committee that the 1953 Legislature would have a surplus of at least 23 millions left over from the end of this biennium, which ends July 1, 1953.

LEGISLATORS had estimated that the next Legislature would have a shortage of at least \$40 millions in trying to balance the budget for the following biennium.

The 1951 Legislature had expected a small deficit to be incurred in the present biennium, instead of the \$23 million surplus now expected.

Gov. McKay told the interim committee, however, that the next Legislature will still face a serious budget problem.

"We won't be in as bad shape as we expected," he said, "but people must realize that the state government is a victim of inflation, too. All our costs are going up."

He said he hopes the National Governors Conference will succeed in its efforts to get the federal government to reserve certain kinds of taxation exclusively for state and local governments.

THE TAX COMMISSION recommended to the interim com-

missioned to the interim committee that the due date for state tax returns be set back to March 15. It was changed to April 15 a few years ago so it wouldn't make taxpayers have to pay both federal and state taxes at the same time.

The Tax Commission said most taxpayers now pay their state taxes by March 15 anyway, and that the change back to that date would save the commission considerable overhead and let it begin auditing returns a month earlier.
