A PUBLIC HEARING will be held at the Courthouse Tuesday at 7:30 p. m. by the
Lane County Planning Commission to consider proposed zoning of areas lying south-
west and southeast of Eugene. Recommended for an agricultural zone is a tract running
from the city limits eastward to the Southern Pacific tracks. Zoning is also proposed
southward along both sides of the new re-located highway to include fringe areas
surrounding Goshen. Patches of zoning around Goshen would include agricultural,
heavy industrial and suburban residential. Zoning along the new highway would
prohibit billboards. A hearing also will be held on proposed zoning or a small area
southwest of Eugene. This area would be zoned suburban-residential.

Hitler's Hideaway Being Destroyed

BERCHTESGADEN, Germany —(U.P.)—One wall is all that re-
mains of Adolf Hitler's famous
Bavarian mountain-top hideaway,
the Berghof.

That, too, will crumble under a
blast of dynamite soon, if a strong
Alpine wind doesn't get there
ahead of the German wrecking
crew.

A group of American news-
men touring military installations
in Germany found demolition of
the Berghof (House-on-the-hill)
is almost complete. The razing
was ordered to keep the Germans
from turning the Hitler house into
a national shrine.

FOUR MILES UP, on the crest
of the Obersalzberg spur, behind
an "off limits" sign, the Fuehr-
er's famed Eagle's Nest stands in-
tact. It is better known to Amer-
icans than Berghof, but Hitler ac-
tually spent little time in that al-
pine retreat. It will not be de-
stroyed.

The dozens of tourists who
daily trek up the mountainside
for a last look at Berghof are
mostly American servicemen on
vacation in the picturesque Berch-
tesgaden Valley.

The one wall now standing amid
the rubble of the once-formidable
citadel was the most distinctive
feature of the Berghof architec-
ture. It originally spanned the 70-
foot front of the Fuehrer's luxu-
rious conference chamber. There,
Hitler planned the Austrian inva-
sion and the Munich pact.

A GAPING HOLE is all that is
left of Hitler's huge 26 by 13-foot
picture window through which he
gazed into Austria and dreamed
of conquering the world.

THE CHRYSLER NEW YORKER
6-PASSENGER SEDAN
White side-wall tires at extra cost

WHEN YOU TRY POWER STEERING... HERE'S WHERE TO COME FIRST!

You've heard about it and read about
it. Now, if you haven't felt what
Power Steering does for you, we invite
you to try it first in a Chrysler New
Yorker... where you will find full-
time (not partial) Power Steering!

What happens is this...

You handle the steering wheel in
normal fashion. But 4/5 of all the
work is done for you by hydraulic
power, constantly at your command.
Also, you turn the wheel 1/3 less
distance now for every maneuver...
the feeling you get of utter control is as

wonderful as it is new. The complete
relaxation at the wheel is amazing.

Even at a standstill you can turn
the wheel easily. Now, parking is
shorn of its troubles (and fatigue!)...
and you can negotiate traffic, awkward
drives, and garage doors precisely and
with ease.

You can double the longest day's
drive you've ever known... end up
free from arm and shoulder strain.
Rough roads, soft shoulders, snow,
mud?... the power that helps you
steer now prevents the car's wheels

from "steering back" at you. The
course you set is held, at any speed,
till you want it changed. Yet, with
this 5-times greater control, "wheel
feel" is always the same.

Why not come try it? Learn for
yourself why growing thousands of
motorists say they'll never be without
Full-time Power Steering from now on!
