Britain to Reply To Iranian Offer

TEHRAN, Iran (AP) — A government spokesman said Thursday Britain has agreed to reply by Sept. 3 to the Iranian offer to discuss compensation claims arising out of nationalization of the 1½ billion dollar Anglo-Iranian Oil Company.

The spokesman said this promise was made Wednesday during a three-hour conference of U. S. Ambassador Loy Henderson and British Charge d' Affaires George Middleton with Premier Mohammed Mossadegh.

Kimball, Race Talk to Legion

NEW YORK (AP) — Secretary of the Navy Kimball Thursday asked the American Legion to help keep America strong on the seas. "You can help us," he told Legionnaires at their national convention, "by supporting our requests for appropriations to create and maintain the strong armed forces this country is going to need as long as aggression stalks the world."

Kimball followed Secretary of the Army Pace in the list of speakers for Thursday morning's convention session. In their prepared remarks, both extolled the merits of their respective services.

Await Election

The Legion later Thursday was to elect its national commander. Lewis K. Gough, 44, Pasadena, Calif., and Walter E. Alessandrini, 39, Philadelphia, were major contenders.

The Navy secretary said the nation has increased its investment in its armed services about 100 billion dollars in the last 20 years, adding:

"For the richest nation on earth, I think this is a more or less modest investment in national insurance. The total investment is less than one-third of one year's national income, and while, of itself, it is a tremendous amount of money, I do not believe it is excessive."

"The stakes are high in this battle for freedom in which we are engaged and it cannot be won with tokens or I.O.U.'s."

Kimball said the Navy should now have four carriers of the Forrestal class under construction instead of two and "it is my hope that the third or fourth vessel of the Forrestal class will be atomic powered."

'CAUTIOUS OPTIMISM'

Regarding the state of the Army, Pace said the facts "fairly lead to a conclusion of cautious optimism, tempered by the consideration of tenuous problems that lie ahead."

In the 26 months since the Korean conflict began, he said, the Army has grown from 593,000 men to more than 1,550,000.

"Our training system," he said, "is second to none in the world." "The quality of our leadership," he went on, "as well as the numbers (of officers) available, is substantially better than when we started our buildup for World War II."

Weapons have improved too, Pace said, "and the potential of the atom will in the future be added to our firepower in the form of guided missiles and artillery."

Tanker Sale Planned

TEHRAN, Iran (AP) — The semi-official newspaper Bakhtar Emrooz said this week an unidentified Japanese firm had proposed to build and sell 26 large oil tankers to Iran. The newspaper gave no further details.

Reds Kidnap Frontier Guards

BERLIN (AP) — Communist People's Police kidnaped two West Berlin frontier guards at gunpoint and dragged them into the Soviet Zone, West Berlin police reported Wednesday night.

The incident took place at a place where the American sector of Lichtenfelde-Sued borders on the Soviet Zone.

The two officials whose job it is to prevent illegal trade between East and West Berlin wore civilian clothes.

West Berlin authorities regard the incident as a clear frontier violation by the People's Police, as the two men were still about six yards on the West Berlin side of the border when they were kidnaped.

This was in contradiction with a statement by Abbas Parkhideh, president of the sales commission for the Iranian government's own oil company, three days ago. Parkhideh said Jones, head of the Cities Service Oil Co., came at the invitation of Mossadegh. When newsmen pointed out the contradiction, the spokesman replied, "This is my information."

California Firm Low On Dredging Bids

PORTLAND (AP) — The Pacific Dredging Co. of Paramount, Calif., was low of two bidders Tuesday for dredging a 30-foot channel in Coos Bay. The firm's offer was \$204,890, compared to the government estimate of \$193,908.

Record Total Of Polio Cases For One Week

WASHINGTON (AP) — A weekly record total of 3,503 new cases of infantile paralysis was reported to the U.S. Public Health Service for last week.

Announcing this Thursday, the service said the previous record for any one week since it has kept reports was 3,416 for a week in August 1949.

That was the year in which the highest annual total was recorded. Despite the upsurge last week from 3,110 cases in the preceding week, this year's cumulative total since Jan. 1 ran 547 below the 1949 figure for the same period. There have been 19,980 cases this year and 20,527 in the 1949 period.

Michigan for the second straight week led the nation in new cases, 300 for last week and 244 in the preceding week. Illinois was next, with 272 cases last week and 223 the week before.

Texas continues to lead the nation in cases this year, with 2,953 since Jan. 1 and 162 last week. Iowa has moved into second place for the year, with 1,230, including 246 last week. California has dropped to third in cases for the year with 1,203, including 121 last week.
