Heart Massage Restores Boy

CHICAGO (AP)—Hand massage of a heart that stopped beating was credited Friday with saving the life of a four-day-old boy—youngest known patient to survive such an ordeal.

The baby's heart stopped beating while he was undergoing an operation in a New York hospital for a diaphragmatic hernia.

Surgeons immediately made an incision in the baby's chest and began massaging the heart by hand. A heart beat was detected within a minute.

The beat returned to normal within two minutes. Several heart stimulants were injected directly into the heart during the hand massage.

In a report of the case in the Journal of the American Medical Assn., the doctors said that the child, seen five months later, was eating well, gaining weight and appeared to be progressing normally in every respect.

Liberian Ship Owners Fail to Stop Picketing

PORTLAND (AP)—The owners of the Liberian steamship Riviera lost their attempt Friday to end picketing by crew members.

Circuit Judge James R. Bain denied their motion after an attorney for the AFL Sailors Union of the Pacific asserted there was a labor dispute between the crew members and the owners. The crew is demanding improved living conditions on the ship.
