

Ike to Get Rid Of Crooks First

Pledges Use of FBI Against Traitors

ST. LOUIS (AP)—Dwight D. Eisenhower pledged tonight he would use the FBI and other investigating agencies to root crooks and traitors out of government as a first order of business in a Republican administration.

He pledged they would be replaced by "incorruptible" men and women who would chart the nation on a four-point goal of saving, streamlining, decentralization and unity.

The Republican presidential candidate expressed confidence that a "moral uprising" is on the way and told what he would do if it brings a GOP victory in November.

CALL IN HEADS

"The first thing is to call in the heads of every investigating agency of our federal government," he said.

"We will make clear to them—clear beyond any chance of misunderstanding—that the finding out and rooting out of those who practice or condone subversion or corruption is their first, their most urgent business."

Talking on "good government" and how to get it before the annual convention of the National Federation of Women's Republican Clubs, Eisenhower stressed the part women can play in the clean-up drive.

"Honesty is the best policy." "A man is known by the company he keeps." "A penny earned is a penny saved." "Birds of a feather flock together," and "I would rather be right than be President."

Those are the things to which the nation should return, he said, and it is "too late for half-way convictions and part-way measures." He said the way to good government is to make it good "clear down to the roots."

Expanding on his four-point objectives, Eisenhower said savings could be accomplished by a review of every spending program of the government.

"A broom in the hands of a morally indignant woman can do the work of a bulldozer," he said.

ROLE OF WOMAN

Referring to the role of women in the Kansas City political clean-up in 1940, he said: "They made the broom a mightier political weapon than the bribe."

The St. Louis speech climaxed a day of "whistle-stopping" across Missouri during which he struck out, at every stop, at the "low moral tone" of the Truman administration. He called it "a shabby picture."

At Jefferson City he left the campaign train for a few minutes for what he said was "a very urgent telephone call" from New York. He talked from the station master's office.

Park Vote Set By River Road

RIVER ROAD—Citizens served by River Road Water District will vote Monday on the formation of a park and recreation district. Polls will be open from 8 a. m. to 8 p. m. (PST) at River Road school.

There are two propositions on the ballot, No. 1 being the formation of the park district, and No. 2 election of five members of a park board of directors. Only five candidates are named on the ballot for the five-person board, but there is space for write-ins. On the list are: Lloyd A. Gubrud, Leo C. McGee, Mrs. J. J. Fuller Jr., Dr. Leland W. Stauffer and John Scheidt.

This is a special election called by the Lane County Court on petitions by River Road Civic Club, sponsoring organization. The club merely acted to get the measure on the ballot and has not expressed an opinion on it.

Pat Nixon Says Senator's Pay Runs Out Fast

NEW YORK (AP)—Patricia Ryan Nixon, wife of the Republican vice presidential candidate, commented on the family finances in an article in the Sept. 6 issue of the Saturday Evening Post.

In a story titled "I say he's a Wonderful Guy," under her by-line, Mrs. Nixon said:

"We have never done much entertaining in Washington because a senator's salary, which is all we have, runs out amazingly fast."

Kindergarten Vote Tuesday

(Continued from page 1)

propose endanger later bond issues which might be needed to build more grade schools?

Best estimates place the minimum number of grade classrooms that will have to be built in the next five years at 82 to house the ever-expanding school population and maintain the same standards of education as now.

This would mean a five-year cost of about \$3 million. Compared to the \$7 million spent for similar purposes in the past five years, that is not much, but probably still means an increase in taxes.

\$6 PER \$100 OF TAXES

The kindergarten measure, if passed, would increase taxes by about 4 to 4.5 mills, or about \$6 for each \$100 paid in taxes last year. Next year's school millage rate will be about 47.1 mills.

The \$250,000 bond issue would start the capital outlay ball rolling, and after the first 12 kindergarten rooms were built, these construction needs would diminish. Other school building needs will not diminish, if present predicted enrollments materialize.

However, the \$84,000 requested in the third ballot measure Tuesday is different. These funds are for operation expenses the first year, and with rising prices and wages, will probably not decrease at all after the initial cut when the first basic school support money is received.

MORE STUDENTS

All in all, the cost picture for public education throughout the nation is black—and Eugene is no exception.

The results of a study on future grade school enrollments here now being made by Dr. C. L. Huffaker, of the University of Oregon Bureau of Statistical Research, are startling.

Although not yet finished, the study estimates that at least 1,750 first grade students will enroll annually in Eugene schools by 1958. That compares with 920 now.

By establishing kindergartens, another 700 to 800 children would be added to the school rolls that now list 8,100.

There is no indication that the passing of the kindergarten measure would endanger either later grade school building needs or next year's budget. But some school patrons and administrators consider that an ever-present danger, especially after the failure of the school budget to pass at the first vote two years ago. Others are confident there is no danger.

If the kindergarten measure passes, but later capital outlay measures fail, it means the voters would have allowed something new to be added, but would have failed to house the youngsters already in school.

Adlai Reaffirms 'Rights' Stand

Tells South Retreat Would Be Dishonest

RICHMOND, Va. (AP)—Gov. Adlai E. Stevenson told the South tonight he could not retreat from his stand on civil rights without becoming intellectually dishonest and beyond the redemption of "an alchemy of election."

He stuck firmly to the Democratic platform plank on civil rights, urging the South not to listen to "voices of hatred and unreason" and to approach the admittedly difficult issue with "reason and charity," as advocated by Robert E. Lee, commanding general of the Confederate Army.

"The political abuse of the problem of discrimination in employment, the exploitation of racial aspirations on the one hand and racial prejudice on the other—all for votes—is both a dangerous thing and a revolting spectacle in our political life," he said in a speech prepared for delivery.

FACED ISSUE

The Democratic presidential nominee, in his first major campaign appearance in the South, faced the issue that threatens party unity from Virginia to Texas.

"In the broad field of minority rights," he said, "The Democratic Party has stated its position in its platform; a position to which I adhere."

"I should justly earn your contempt if I talked one way in the South and another way elsewhere. Certainly no intellectually dishonest presidential candidate could, by an alchemy of election, be converted into an honest president."

"I shall not go anywhere with beguiling serps words. To paraphrase the words of Senator John Sharp Williams of Mississippi, better to be a dog and bay at the moon."

AVOID RED FLAG WORDS

Stevenson carefully avoided use of such red-flag words as "communist" or "FEPCC," and stuck, as he put it, to the "broader aspects."

Instead, he started out by blaming most of the ills of the South prior to 1932 on the "bleak years" of Republican rule from 1865 to 1912.

After the Civil War, he said, "the victor's settlement permitted the South to keep its charm, its mocking birds, and its beaten biscuits. For himself, the victor retained only the money and the power."

He said the same sort of rule prevailed between Woodrow Wilson and Franklin D. Roosevelt, noting, however, that the Republicans "neglected" Republican, as well as Democratic farmers, small businessmen and working people.

He particularly criticized the Republican tariff policies of the past as they applied to the South.

Herb Growers Set Monday Meeting

"Grandmother's Herb Garden and its Medicinal Uses" will be the topic of the meeting of the Herb Group of Eugene Garden Club Monday at 2 p. m. at the home of Mrs. L. M. Watson, 1375 Pearl St. Mrs. R. D. Bussey will lead the lesson.

There will be a discussion on the preparation of herbs for earning money and of the working with herbs for vinegar. Members will work with lavender for making potpourri.

The meeting is open to all who are interested in herb growing.

Giant Flower Grows Nicely In New Soil

One of Lane County's youngsters wandered into the Onlo Editor's retreat Saturday, a wad of cotton twine in his hand.

Ed Petty, who lives near Creswell, explained that the string, if he could have untangled it, would have been as long as his prize sunflower is tall.

The onion expert took his word that it was 15 feet "and 2 or 3 inches" high, or long.

Petty figures it's a pretty good plant, because he's been raising such things for nearly 75 years. "It's practically new ground, too. . . it's been in use for only about 88 years," he explained.

Chamber to Get Report Sept. 29

With presentation of a comprehensive Lane County economic report scheduled as a special feature, the 1952 annual meeting of the Eugene Chamber of Commerce is attracting an unusually heavy number of advance reservations, Chamber Manager Fred Brenne reported Saturday.

The banquet meeting will be at 6:30 p. m. Sept. 29 at the Erb Memorial Union on the University of Oregon campus.

The economic report has been prepared by Industrial Survey Associates of San Francisco. It has been supervised by a county-wide committee of business and civic leaders. Its \$6,000 cost has been underwritten by the Eugene Chamber, the Lane County Court, the City of Eugene and the Eugene Water & Electric Board.

The report will be used as a basis for planning moves to better stabilize Lane's economy.

The annual Chamber meeting also will see election of new officers for the organization's 1953 operations. J. W. Kipper, manager of Sears Roebuck Co., has been nominated for a second term as president. Other selections of the Chamber's nominating committee are: vice-president, Sam Rodway; treasurer, John Luvaas; directors, Erhman Giustina, Howard Lorence, Charles Sparks, and Mark Storms alternate.

Injured in Accident

Paul G. Harmon, 20, Oakridge, received a broken right leg shortly after noon Saturday when some rail equipment he was using on railroad track near Gilcrest slipped.

Building Code Being Studied

Council May Adopt Pacific Coast Rules

Action to adopt the 1952 version of the Pacific Coast Uniform Building Code is expected at Monday night's meeting of the Eugene City Council.

The 7:30 p. m. session in the Council chambers, second floor, City Hall, also is scheduled to bring a progress report on street construction projects throughout the city. The Council late last month noted a number of paving jobs running beyond contract deadlines and ordered "liquidated damages" penalties withheld from payments to contractors.

City Manager Oren L. King Saturday reported that recent progress on street work has been "excellent." With continued good weather for a reasonable period, he said, all paving now underway will be completed for winter use. Other topics at Monday night's meeting may include a discussion of City Transit Lines request for renewal of its bus franchise in Eugene.

Council on Education President to Visit UO

The president of the American Council on Education, Dr. Arthur S. Adams, will be a guest of the University of Oregon Tuesday, Sept. 30.

Dr. Adams, whose offices are in Washington, D. C., will also attend and participate in the meeting of the National Association of Governing Boards of State Universities and allied institutions in Portland Sept. 30 through Oct. 4. He will speak at a meeting of the association Tuesday, Oct. 1.

On the University campus Dr. Adams will speak informally at an all-faculty coffee hour Tuesday afternoon at 4 p. m.

1. QUESTION:

How are Dr. Elliott's blended lenses different from bifocals in work requiring sight for near and far distances?

2. ANSWER:

Take for example a cashier. With Dr. Elliott's blended lenses she has a small bottom lens to look through to read checks and make change, if her eyes are not perfectly centered in the proper place, she can still see close up, and her eyes move naturally to the best position without jump, jerk, or confusion. In addition to this she can see clearly at middle distances without leaning forward and craning her neck. The bifocal dividing line is not there to interrupt smooth, effortless sight.

HOW MUCH FUN do you get from a GALLON OF GAS?

"MILES PER GALLON" is something everyone talks about—and Buick owners take pride in telling us that they're doing OK on this score.

But the kind of miles is important too. The real pay-off you get when you own a Buick is in what happens while you're turning gas into power.

Every drop of gas sets off a tiny tornado of compacted energy in Buick's Fireball 8 Engine.

You swoop from a standing start to any speed the law or good sense permits with effortless smoothness, thanks to Dynaflo Drive.*

You soar over the road with magnificent levelness—buoyed by big soft coil springs on every wheel—coddled by a dozen other features which make up Buick's million dollar ride.

The car holds direction like an airliner on the beam. You snug into turns with sure-footed poise—ease your grip on the steering wheel and feel the car seek a straight course again like a compass points to the pole.

This is travel as you've always hoped to find it—relaxed, carefree, luxurious, happy—while you leave the miles behind.

Yes indeed—life's different in a Buick. How different you should find it firsthand.

How about letting us give you a Buick—any day you say?

Equipment, accessories, trim and models are subject to change without notice. *Standard on Buick Wildcat optional at extra cost on other Series.
