**Bulgarians Cast Ballots**

VIENNA, Austria (AP)—Radio Sofia said Monday 99.8 per cent of Bulgaria's voters cast ballots for the Communist-run fatherland front candidates in Sunday's parliamentary elections. They were the only candidates on the ballot. The radio said 4,964,544 persons, or 99.33 per cent of the eligible

voters, went to the polls to elect a new 465-man assembly to replace the one in which there already was no opposition to the Red regime. Of these 4,954,765 voted for the Red candidates.

Eligible voters who failed to show up at the polls were liable to fines of 500 leva, about \$7.50, each and other penalties. Among those re-elected to the assembly was Premier Vulko Chervenkov.

**Equipment Packed For Arctic Experiment**

NORMAN, Okla. (AP)—A University of Oklahoma Medical School physiology professor packed some 700 pounds of gadgets Monday for a flight to Fairbanks, Alaska, Christmas Day, and if it's warmer than 40 degrees below zero he says he'll be disappointed.

Dr. Paul Webb will be testing equipment to measure the body heat Air Force men at Ladd Field lose when they breathe arctic air. He believes the experiment will determine the best type clothing and food for cold climates.

**Nonalcoholic Parties Slated**

WASHINGTON (AP)—It may be a dry year for Christmas office parties in government buildings—the drought already has reached the State Department press room.

The State Department Correspondents Assn. called off its traditional Christmas party, usually attended by top officials, when

Under Secretary of State Donald B. Lourie sent the newsmen word the ban on liquor would extend into the quarters they use.

All office parties in State Department divisions will be non-alcoholic. And there were signs the same rule would apply in other government departments.

**Light** as the twinkle of a star

If one could catch the twinkle of a star and put it in a glass—what a wonderful beverage it would be! But, of course, that is beyond the skill of our worldly master brewers—they must work with earthly things like hops, and grains and water. But they can dream and they can strive. And, in striving, our own Olympia master brewers created a beer that has won fame for its lightness, its delicacy, yes, even the "twinkle" of its flavor. The secret—the brewer's skill and, of course, our famous water.

Waters are always welcome at
