

Woman Identifies Alleged Abductor

PHOENIX, Ariz. (AP) — A kidnaping charge was filed Saturday against short, swarthy Daniel J. Marsin, 41, who was identified by Mrs. Evelyn Ann Smith as the man who abducted her and collected \$75,000 ransom.

Marsin, an unemployed welder with a wife and two children, had been seized near a ranch house four hours after Mrs. Smith, 23, was released unharmed in the Superstition Mountains Thursday night.

Marsin was ordered held under \$20,000 bond.

'Grave Peril' In Indochina, Nixon States

WHITTIER, Calif. (AP) — Vice President Richard M. Nixon declared Saturday that in the task of keeping world peace "we recognize we cannot do the job alone," and warned that Indochina is in "grave peril" and its fall could be "desperately serious" to the free world.

However, in listing as part of America's policy the recognition we can't do the job alone, he pointed out, "we have . . . retaliatory power to be used . . . at our discretion."

Nixon said in a commencement address at Whittier College, his alma mater, that "America's policy can be summed up by the phrase, 'Peace without surrender.'"

"There is only one threat to the peace of the world—the one which is presented by the international Communist conspiracy," with its power center in the Soviet Union," he said.

The Vice President said that because of the "peace without surrender policy," the chances for overt, Communist aggression "in Korea and Indochina or any place in the world have been reduced to a minimum."

He listed three points in the policy:

"1—We recognize that we cannot do the job alone.

"2—We are maintaining our military strength at home and the military strength of our allies at a high level, not because we want war, but because we believe that that is the only way to get peace in dealing with the Communist threat.

"3—We have adopted a new military policy which places primary reliance on mobile, retaliatory power to be used against the major source of aggression at our discretion.

"We have done this not because we want an atomic war, but because we don't want one," he said.

Nixon said that the Communists' "present activities are aimed at acquiring the balance of power in the world, which will enable them to begin a world war they can win, or to force the free world to surrender to their domination."

Boy, 4 Others Canonized Roman Saints

VATICAN CITY (AP) — A blacksmith's son who died at the age of 14 and four other outstanding Roman Catholics became saints Saturday in a glittering ceremony that rivaled the canonization of Pope Pius X two weeks ago.

Some 100,000 pilgrims, nuns and priests from all over the world cheered Pope Pius XII as he was borne across St. Peter's Square to the golden throne where he decreed the boy, a nun and three men saints.

The heat in the square was still scorching after a day when the temperature soared into the high nineties, but the Pope, still not completely recovered from a severe attack of gastritis, showed no weakness during the hour-long ceremony.

The boy, Domenico Savio, was the dearest to the hearts of the pilgrims in the square. A star pupil of St. John Bosco, founder of the Salesian Order, he could recite all the catechisms by the age of seven and developed a strange talent for seeking out persons in need of aid.

His teachers said young Domenico died because his fervor out-taxed his physical strength.

Others ordained Saturday were:

- French martyr Pierre Louis Chanel, of the Marist Missionary Fathers, who was slain by cannibals on the Pacific island of Futuna.
- Roman priest Gaspare del Bufalo, founder of the Missionaries of the Most Precious Blood, who died in a cholera plague he tried to quell.
- Spanish-born priest Joe Pigmatelli, who re-founded the Jesuit Order after it was banned by Pope Clement XIV.
- Italian nun Maria Crocifissa di Rosa, founder of the Order of the Servants of Charity.

A-Plane Study Stepped Up

WASHINGTON (AP) — Research on the lagging atom-powered airplane program has been stepped up in recent months, it was learned Saturday.

A year ago Secretary of Defense Wilson, after making a survey of a project started in 1951, virtually brought it to a stop until new programming could be worked out. This now has been done.

Even the reborn project remains, under Pentagon policy, confined to blueprint and laboratory study, with no time set for actual construction of an aircraft or engine to fly it. But the money and technical studies going into research are being increased.

Some officials say that if the problem were only one of demonstrating that an airplane can be flown by an atomic engine, that probably could be done within two or three years. But this would not meet modern military needs.

Man in Darkness

A barking dog caused Marsin's arrest Thursday night. Officers had stopped at the Quarter Circle U ranch in their search for the kidnaping.

"When the dog barks twice some stranger's around," Mrs. Jim Ruiz told them.

The officers spotted a man skulking in the darkness and seized him.

Marsin told them he had been prospecting in the mountains and became lost. He said he ran out of food and water and in delirium ripped off his shirt and undershirt.

Marsin was taken to jail in Phoenix.

Lane County Clerk National Board Director

Harry L. Chase, Lane County clerk, was elected to a directorship on the national board of county clerks and recorders Friday at the annual convention of the National Association of County Officials in Omaha, Neb.

Freak Mishap In Car Window Fatal to Boy, 2

SPOKANE (AP) — A 2-year-old boy, who apparently tried to crawl through the partially opened window of an automobile, slipped and was strangled in a freak accident Saturday.

The child, Timothy Froese, lost his footing after sticking his head through the opening. A doctor and firemen worked in vain in an effort to revive him.

Mrs. Froese said the boy got into the car in front of the house, rolled the window down a bit, then tried to crawl out. His body was found by his little 7-year-old aunt, Linda Carrell of Gresham, who is visiting here.

Knowland Jobs Ouster Move

WASHINGTON (AP) — Sen. Knowland (R-Calif.) sharply condemned Saturday as a "mistake" and "not justified" a move by Sen. Flanders (R-Vt.) to oust Sen. McCarthy (R-Wis.) from his senate chairmanship.

Knowland, the Senate Republican leader, said that if a fight broke out on the Senate floor over the Flanders proposal it might "completely block" President Eisenhower's legislative program.

Flanders' Action Termed 'Mistake'

WASHINGTON (AP) — Sen. Knowland (R-Calif.) sharply condemned Saturday as a "mistake" and "not justified" a move by Sen. Flanders (R-Vt.) to oust Sen. McCarthy (R-Wis.) from his senate chairmanship.

Knowland, the Senate Republican leader, said that if a fight broke out on the Senate floor over the Flanders proposal it might "completely block" President Eisenhower's legislative program.

ON THE DESK

Flanders filed in the Senate Friday a motion that would strip McCarthy of his committee chairmanships unless he answers questions raised about his finances in a 1953 Senate elections subcommittee report.

The Flanders motion was permitted to "lie on the desk" without assignment to a committee, which would permit any senator—Republican, Democrat or Independent to move to call it up.

Taken by surprise by the Flanders move, Knowland told reporters "I do not believe that is the procedure to be followed" in dealing with McCarthy.

NOT JUSTIFIED

"I don't believe the motion entered is justified," Knowland said, "I think it is contrary to established procedure in the Senate. I think it would open up the door ultimately to action which would be disruptive of Senate procedure and practice established over a long period of years."

McCarthy, who has stepped down temporarily as chairman of the investigations subcommittee while it inquires into his dispute with Army Secretary Stevens, has said he may not be back in Washington in time to resume the witness stand Monday morning.

In that case, his subcommittee chief of staff, Francis P. Carr, probably will be the witness.

Springfield Station Given FCC Go-Ahead

WASHINGTON (AP) — The Federal Communications Commission Saturday authorized W. Gordon Allen to operate a radio station at Springfield, on 1050 kilocycles, one kilowatt, daytime only.

Allen, who also has radio stations at Lebanon and Salem, was authorized to begin operating the station at once.

The grant had been held up by protests of three Eugene stations that the new Springfield station would have a service area overlapping station KSGA at Cottage Grove, Ore., in which Allen had owned a 70 per cent interest. Allen since has transferred his interest in KSGA to Orlo M. Bagley.
