

Independence is a mighty important word to every good American. Our forefathers fought for our country's independence—and won it for us... Upon this foundation, Americans have steadily built a country that symbolizes Freedom to the whole world. On this July 4th, let's each rededicate ourselves to protecting our democracy and building an ever-greater country of free men.

Today there is a peaceable strike in the Lumber Industry symbolizing freedom of action in this great democracy—we hope a settlement is made in the very near future.

Let's all rest and have fun and ease the tension during the 4th of July holidays.

The Strike

The strike in the Lumber Industry is serious — make no mistakes about that — but cool heads and reason will prevail — that's the American way — to even mention 'riots', let alone talk about it is "Un-American" to say the least. If necessary we will waive all profit during this period. We invite all other merchants to join us and waive their profits and carrying charges during this strike emergency.
