...rs Recognized By Sound of Voices

...IT (AP) — Identified as ...bers only by the sound ...mices, Simon H. Thomp... and Leslie W. Reamer, ...troit were convicted by a federal court jury Tuesday in the $11,500 holdup June 28 of the Trenton State Bank.

Judge Ralph M. Freeman set no date for sentence.

Father to See Baby Daughter Via TV

DENVER (AP)—Denver television station KFEL-TV has been granted permission by Fitzsimons Army Hospital authorities to show a tuberculosis patient his daughter.

The baby, Kelly Lyn Gray, was born Tuesday, to Cpl. and Mrs. Ramon L. Gray. She is their first child.

Gray is hospitalized with tuberculosis contracted in a North Korean prison camp. Since he can't visit his daughter in person, he'll see televised pictures of her each afternoon the rest of this week.

Boeing Making Biggest Planes

WICHITA, Kan. (AP)—The longest range and heaviest jet bomber in the world—the Air Force B-52 Stratofort—will be coming from the Boeing Airplane Co. assembly line here within a few months.

Progress toward early production here, in addition to that now started at Seattle, Wash., was revealed as Boeing's 1000th B-47 medium jet bomber was rolled out of the factory.

President Eisenhower, in a recent wire from Denver, hailed the rollout as a "significant event in the building up of our defense structure to meet the threat of Communist aggression."

The B-52, regarded as a hydrogen bomb carrier with intercontinental range, and the B-47 Stratojet are counted on to hold this country's lead over Russia until supersonic bombers and transocean missiles are available. New B-52 orders have just been placed, calling for more planes at a stepped-up rate.

Information on the two 600-mile-an-hour bombers spotlighted America's multiplying capacity for massive retaliation against major aggression.

There are now more than 1,000 B-47's able to fly 4,000 miles without aerial refueling, which could rain down atomic destruction at a fantastic rate. Besides the 1,000 planes produced here, some in high-speed reconnaissance versions, the Stratojets also are being built by Lockheed Aircraft at Marietta, Ga., and Douglas Airplane Co. at Tulsa, Okla.

Eventually, the Air Force will have 2,000 B-47's using old-fashioned Hiroshima type atomic bombs, and 1,000 Stratojets which could drop the equivalent of two million tons of TNT—many times the weight dropped on Germany in World War II.

Gen. Alfred M. Gruenther, supreme commander in Europe, makes the claim frequently that Russia at present has no defense against the bombers.

The B-52 is believed to be somewhat faster than the Stratojet, probably weighs twice the jet, probably weighs twice the double the flying range.

Both planes illustrate the long time required to get a modern, complicated aircraft into production. B-47 design studies started in 1943, and B-52 drawing board work began in 1946.

Back in those days, the B-29 superfort, a 250-mile an hour bomber about the size of the B-47, was the hottest thing going.

ELEANORE TREUTLE, accompanied her husband, Dr. William B. Treutle, a graduate of the University of Oregon Dental School, to land of the world's last lost tribe of people, to film "Karamoja," opening Thursday at the Rex.

JANE POWELL and Howard Keel join their singing voices for the first time in hilarious musical, "Seven Brides for Seven Brothers," now playing at the Heilig.

So many things* your family can do together in November Better Homes & Gardens

*How to winterize your home

Let everybody pitch in and get the house ready for winter. November Better Homes & Gardens shows you what to do and just how to do it. You'll find page after page of ideas to improve your home and better your way of living, in November BH&G.
