

### Valve Cause Of Explosion

PORTLAND — Fire investigators said Wednesday the explosion that caused an estimated half a million dollars damage in north Portland early Monday apparently resulted from a broken

safety valve in a propane-filled tank car. Dale Gilman, fire marshal, said the valve was broken by a defect or "improper handling," which loosed the gas under pressure over the railroad yard. He said the gas burned and exploded when the fringe of the gas reached a source of friction, which apparently was a switch lamp in the yards about 200 feet away. Gilman said he examined the faulty valve and found a spring stem had broken and fallen into the gas-filled car. Under pressure, the valve inoperative, the safety mechanism blew open and allowed the gas to escape, he said.

### Pig Attack Fatal

BRIXHAM, England — An attack by six pigs was blamed Tuesday for the death of Miss Florence Stackhouse, 59. Witnesses at an inquest said the animals set upon her as she was walking through a neighbor's field.

## Firm Achieves 'Round the State Fume Control'

### Verdict Denies Damage Claims

PORTLAND — The president of Reynolds Metals Company said in a statement released here this week that the firm has achieved control of fumes from its aluminum plants at Troutdale, Ore., and Longview, Wash. R. S. Reynolds, Jr., Richmond, Va., made the announcement shortly after a verdict was returned in Tacoma Federal District Court denying claims for damages against the two plants from farmers and property owners in Clark and Cowlitz counties, Washington. Judge George H. Boldt ruled against the 18 plaintiffs and said "the court is fully satisfied that the utility of the defendant's plant operations and their importance to the economy and security of the nation far outweigh injury to plaintiffs shown by the evidence. Neither a finding of nuisance nor granting of relief is justified." The plaintiffs had asked \$875,000 for damages to crops and farm animals and for depreciation and property damage. They also sought an injunction against further operations of the two plants until control was achieved. C. Kenneth Warrens, executive consultant to Reynolds, said in Portland the control project had cost \$4,713,931 for the two plants and required years of effort by top scientists and engineers.

## Demo Senator Honor Guest

Lane County Democrats Friday night will eat dinner with Mike Mansfield, Montana Democrat and one of the more colorful members of the U.S. Senate. The dinner will be at the Lynnwood Cafe, on Highway 99N, at 6 p.m. Mansfield, who was elected to the Senate in 1952 after serving five terms in the house, is 51 years old. When he was 14 he ran away and joined the Navy for World War I. Then he served a year in the Army and two years in the Marine Corps in the Far East.

After he got out of the service he worked in the mines in the Butte area. Although he had not finished the 8th grade, he applied for admission to the Montana School of Mines and made it. He graduated and took a master's degree at the state university, and later taught there for 10 years as a professor of Far Eastern History. He was first elected to Congress in 1944, when he was 41. Persons interested in attending the Friday dinner may make reservations by calling Democratic headquarters, 3-3922. Following the dinner the Democrats will go the "candidates' fair" at the Eugene Veterans Memorial Bldg.

## Damage Estimated

TOKYO — The Japanese government Wednesday estimated at 155 billion yen (432 million dollars) the property damage inflicted by last month's disastrous typhoon which took more than 1,200 lives.

## MIGS TURNED BACK

TAIPEH, Formosa — The Chinese Nationalist government said two Chinese Communist MIG jets flew over the Tachen Islands 200 miles north of here Tuesday but fled when Nationalist antiaircraft guns opened fire.

Advertisement for Paul Patterson, Governor of Oregon. Features a portrait of Paul Patterson and the text: 'He is giving Oregon a fresh and vigorous leadership that people like and completely trust. Governor Patterson is doing an outstanding job as Governor of your State. He is sincere, capable, and forthright—and he has shown a remarkable ability to get things done. He has initiated a practical, workable plan for building Oregon. He has moved wisely and surely in the matters of strikes and increasing employment. He is constantly working to expand markets for Oregon produce and products and bring a greater return to the farmer. Let's keep the trusted, experienced leadership of Paul Patterson as Governor. Vote for PATTERSON on November 2nd. KEEP OREGON'S WORKING GOVERNOR WORKING FOR YOU'.

## 'Round the State BLM to Call for Estimates On Forest Road Work

PORTLAND — The Forest Service and Bureau of Land Management reported Tuesday they plan to call for bids in the next six months on a number of forest road construction projects in Oregon.

Forest Service projects include: Four miles of grading on Pine Creek Road in Baker and Wallowa counties; rock production for Cummins Peak Road in Lincoln and Lane counties; rock production for Fall Creek Road in Lane; six miles of grading and a bridge on South Fork Windberry Road in Lane; 11 miles of grading on North Fork Smith River Road in Douglas County; 4 1/2 miles of grading and rock production on Steamboat Creek Road in Douglas; rock production on the South Umpqua in Douglas; 13 1/2 miles of grading on Indian Creek Road in Lane County. Bureau of Land Management projects include: 19 miles of surfacing on the West Fork of the Smith River Road in Douglas County; 19 miles of surfacing on the Smith River Road in Douglas; a bridge on Twin Sister Rd. in Douglas; grading of Galice Road in Josephine County; 3 1/2 miles of grading on Spencer Creek Road in Douglas County.

## New Courthouse Set

PENDELTON — McCormick Construction Co., Pendleton, Wednesday was apparent low bidder for construction of a new Umatilla county court house here. His offer was for \$589,569. All 10 bids submitted were lower than the original engineer's cost estimate of \$648,860. Work is expected to begin on the new structure shortly after Jan. 1 and completion is scheduled for 12 or 14 months later. The new courthouse will replace the present outmoded building which was built in 1888. It will be financed by a county bond issue.

## To Hear Cases

SALEM — The Oregon Supreme Court will hear 13 cases when it holds its annual fall term at Pendleton Oct. 25-27, the court said Wednesday. Members of the court who will make the trip are Chief Justice Earl C. Latourette, and Justices Harold Warner, James T. Brand, Walter L. Toozie and William C. Perry.

## Must Pay Interest

SALEM — The Oregon Supreme Court ruled Wednesday that the State Highway Commission must pay interest to contractors when the commission delays payments to them. The decision upheld Circuit Judge Alfred P. Dobson, Portland. The suit against the commission was filed by C. F. Eldon, M. P. Hunter and James Wasco, all contractors.

## Human Body Turns Codeine Into Morphine

BERKELEY, Calif. — When codeine is taken into the human body, a part of it is converted into morphine, a study at the University of California has shown.

The research has been continued in an attempt to determine how quickly and how much codeine is converted. If the amount is significant, the scientists believe it would indicate some of the biological effect of codeine may be derived from its conversion to morphine. Both codeine and morphine occur naturally in opium. Codeine, like morphine, is used in medicine for relief of pain, but its effect is milder.

## Keeps Trying

OREGON CITY — Robert Franklin Morris, 24, was in jail here last April for larceny and while visiting with his mother, made a dash for freedom. He was picked up later in a stolen car. While rounding out his first sentence plus time for his escape, he asked Tuesday night to use the phone to call his father. After phoning, he again dashed to freedom and police still were looking for him Wednesday.

Centralized government control has brought ruin and slavery to so many in other countries. I have opposed and will continue to oppose any and all ideas of concentrating more power in our Federal government. VOTE 103 HARRIS ELLSWORTH'.

## Condon Gets Security OK

CORNING, N. Y. — Dr. Edward U. Condon, former chief of the U. S. Bureau of Standards whose name has cropped up in various security inquiries, has been cleared by the Defense Department for access to government secrets, the Corning Glass Works said this week. Condon now is director of research and development at Corning Glass. The company issued a statement confirming the Condon's clearance. Condon's clearance was reported in the Washington Post and Times Herald. The government said Condon had granted clearance to all information "several months after" an appropriate "proper authorization military."
