

School Board Races Settled In Light Vote

Seats Won by Olsen, Dotson and Jensen

With only a small fraction of the eligible voters going to the polls, Lane County's three largest school districts held board elections Monday.

In Eugene's District 4, Gordon T. Olsen won a ballot race with Donald G. Brooke. Olsen, owner of a refrigeration and home appliance business, will be sworn in for a 5-year term on the District 4 School Board next Monday night and will replace Virgil Cameron who is retiring after 10 years of service on the board.

Complete but unofficial results of the Eugene election Tuesday gave Olsen 735 votes and Brooke, a retail grocer, 356.

In Springfield, Bertrand Dotson, manager of a photo shop, was elected to a 5-year term. Complete and official returns from the District 9 election were announced Monday night following a school board canvass of the voting. These results gave Dotson 419 votes, Mrs. Spencer Alexander, 181, and Gordon H. Hale, 118. One ballot was declared void.

Dotson will replace George Easton on the Springfield board. Easton, who like Cameron in Eugene has been chairman of the board, did not seek reelection. Both the Eugene and Springfield boards now will select new chairmen from among their members.

Bethel's District 52 election resulted in the reelection of Harold B. Jensen, residential builder, for a third term. Complete but unofficial results gave Jensen 72 votes, Doyt Branstetter, 46, James Stoop, 41, and Mrs. Hayden Haley, 19.

Summer, Schummer—Play's The Thing

(Reg-Guard photos, Willshire engr.)

SUMMER FUN—The youngsters probably don't realize it, but what they did Monday they did during spring—Tuesday they get to do the same things during summer. The first morning of summer, 1955, found little Mike Edwards, left, son of Mr. and Mrs. Don Edwards, 3055 Alder,

pushing toy cars around a dirt pile in his neighborhood, and little Teresa Pierce, daughter of Mr. and Mrs. Max W. Pierce, 315 Goodpasture Rd., having great fun using the slide in University Park. Tuesday's warm weather is supposed to stay awhile, the weatherman said.

Arrangements For 4-Power Parley Settled

SAN FRANCISCO (AP)—Russia and the Western Powers were reported to have reached virtual agreement Tuesday on arrangements for the top-level talks in Geneva next month.

Informed quarters said Soviet Foreign Minister V. M. Molotov told the Western diplomats at the end of a four-hour meeting that at first sight he saw no reason to object to a series of proposals they had agreed on in New York last week.

He was understood to have told them he would study the proposals more carefully and give his reply in a day or two. The Western foreign ministers apparently were so certain of his acceptance that no further meeting was arranged.

Diplomats at the meeting said Secretary of State John Foster Dulles, British Foreign Secretary Harold Macmillan and French Foreign Minister Antoine Pinay had proposed that:

- 1. The purpose of the "summit" meeting should be to ease world tension and not to negotiate the settlement of specific problems.
2. The meetings should last from four to six days.
3. President Eisenhower should be the first presiding officer, to be followed by French Premier Edgar Faure, British Prime Minister Sir Anthony Eden and Soviet Premier Nikolai Bulganin.

DINE TOGETHER

The four meetings should be held in the Palais des Nations, U.N. headquarters in Geneva, and that the U.N. should be requested to service the sessions.

No council of foreign ministers should be held before the chiefs of government meet.

The four foreign ministers will have dinner together Tuesday with Pinay as host, but no serious discussions were planned.

These developments came as the U.N.'s 10th anniversary meeting got down to its long program of speeches on the world outlook. Macmillan delivered a policy declaration for Britain—the first major foreign policy pronouncement since last month's British elections.

President Eisenhower's opening address was praised by other delegates as excellent and inspirational.

VERY FINE START

The President, speaking Monday afternoon, pledged that he would uphold the principles of the U.N. Charter at the Geneva conference. He declared this is a "season of high hope" for world peace.

"The United States will leave no stone unturned to work for peace," he said. "We shall reject no method, however novel, that holds out any hope however faint."

Macmillan said the President's speech "gave a very fine start to the conference." Belgian Foreign Minister Paul-Henri Spaak called the speech inspirational.

MOLOTOV MUM

There was no comment from Molotov, who later met the President at a reception and exchanged pleasantries.

Eisenhower returned to Washington in his private plane Monday night, approximately 24 hours after his arrival.

Meanwhile, it appeared almost certain that the 60 nations would conclude their session Sunday by adopting a peace pledge which would be known as the San Francisco Declaration.

British Envoy Praises U.N.

SAN FRANCISCO (AP)—British Foreign Secretary Harold Macmillan said Tuesday tension between the East and West seems to be easing, but he declined to predict the outcome of next month's "summit" talks in Geneva.

Macmillan addressed the 60 members of the United Nations at the second day of the week-long 10th anniversary session. He strongly supported the world organization, but also stressed the necessity for supplementing it on some problems with old-fashioned diplomacy.

He declared that the San Francisco meetings "will be memorable" if the diplomats gathered here can apply the old pioneering spirit to the work before them.

"The pageant of history in the past decade has been darkened by disillusionment and, sometimes, despair," he said. "The tensions between East and West have seemed unending. But recently there has been a lifting of the cloud."

Then, referring to the coming meeting of the Big Four chiefs of government, he asked whether it was possible to get back on the road of cooperation between the great powers and whether the leaders might find the necessary inspiration at San Francisco to restore harmony.

"No one yet knows the answers to these questions," he said.

Pack Train Brings Body Out of Woods

A pack train Monday night brought the body of Calvin Osborne out of the Willamette National Forest in Eastern Lane County, where the 30-year-old man died Sunday while on a camping trip.

Coroner Fred Buell said an autopsy was scheduled for Tuesday afternoon. He said it appeared likely that Osborne had suffered a heart attack.

The dead man weighed about 250 pounds and had carried a pack when he hiked into the woods Saturday with friends, Buell said.

Osborne was one of nine campers from Rogue River who carried camping gear into the forest to begin a 5-day fishing vacation. Other members of the party said he had not appeared tired after the 7-hour, 9-mile hike to the group's camp site near Cliff Lake.

The lake is located near the Mink Lake Basin just west of the summit of the Cascades, about 30 miles southwest of Bend.

The group camped overnight at Cliff Lake and left Sunday morning to hike to another lake for a day of fishing. Donald Demick, another member of the group, said Osborne complained of an upset stomach and decided to turn back.

Osborne, with Demick accompanying him, was on his way back to the camp when he collapsed and died.

The dead man operated a logging company at Rogue River. He is survived by the widow. After being brought out of the woods, the body was taken to the Barlow Memorial Chapel in Springfield.

River Flavored

TAIPEI, Formosa (AP)—Muddy Tansu River flowing through Taipei was flavored Tuesday with 20,000 bottles of soy sauce. The cornmeal sauce was poured into the river under supervision of health officials. Thirty-seven brands found to contain chemicals injurious to health were in-

Rocket Blast Being Probed

PORTLAND (AP)—The Air Force pressed an investigation Tuesday into Monday's two-million-dollar rocket discharged at Portland Air Base, but gave little hint when an answer might be expected.

At least six safety precautions are intended to prevent accidental ground firing of rockets, but somehow a dozen from a parked F89 jet cut loose Monday. They destroyed two other jets, damaged a parked C46 transport plane and put a hole in the roof of a house a mile away. No one was hurt.

Col. Elmer McTaggart, acting base commander, said Tuesday that it might be "several days" before a statement could be made on the probable cause.

Two men were in the parked plane, making routine armament and radar inspections, the colonel said. He declined to release their names because, he said, there was nothing to suggest they had anything to do with the mishap.

The plane's rocket-firing circuits were being studied and Col. McTaggart said that was a slow, painstaking task.

Value of the destroyed jets was estimated at \$800,000 to \$1,000,000 each, although a spokesman said the exact value was restricted information.

Conferees Agree On Doctors' Draft

WASHINGTON (AP)—A Senate-House committee Tuesday agreed on legislation extending the Doctors' Draft Act for two years. It would make doctors and dentists up to age 45 liable to the draft. The age limit now is 50.

The conference committee bill also would extend the regular draft of young men 18 to 28 years old for the armed services.

Both draft laws will expire June 30 unless extended. A doctors' draft bill has been bottled up in the House Rules Committee for weeks.

The compromise bill now goes to the House for consideration Friday, bypassing the rules Committee.

Murder Trial Opens In Marion Court

SALEM (AP)—The first degree murder trial of Casper Overcross, Silverton carpenter, opened Tuesday in Marion County Circuit Court.

Overcross is accused of the rifle slaying of Ervin Kaser four months ago. Kaser was shot when he drove to his driveway at his Silverton home.

Attorneys estimated that selection of the jury would take three days.

Leaflets Dropped

TAIPEI, Formosa (AP)—A Nationalist plane dropped 100,000 leaflets Tuesday in a flight over coastal areas of Communist China's Fukien Province.

Cars to Cross McKenzie On Thursday

The McKenzie Highway from Springfield to Bend is scheduled to be open to traffic for the first time this year on Thursday at 8 a.m., according to D. J. Sage, in charge of the state highway department maintenance office in Eugene.

Sage made the report after a trip to the top of the snow-bound pass Monday.

The engineer reported that crews from Bend and from Eugene are within half a mile of meeting. They are working in from three to fourteen feet of snow near West Lava Forest Camp.

Sage explained that crews are going to be "pressed" to get the road widened out by Thursday. But signs will be posted and no trouble is expected.

This is one of the latest openings in recent years, newspaper files show. Last year, light winter snows permitted the highway department to have the road open about four weeks earlier.

The late opening this spring is blamed on the heavy storms that continued into March and April.

Protest Artillery

TOKYO (AP)—The U.S. Army Tuesday staged artillery practice at the base of Mt. Fuji, after protesting Japanese were forcibly removed for the second straight day.

Military in Spotlight Peron Remains on Sidelines

BUENOS AIRES, Argentina (AP)—With President Juan Peron keeping to the background, Maj. Gen. Franklin Lucero continued Tuesday to direct the campaign to restore full peace to this nation left tense by revolt.

The balding, square-jawed army minister, holding the top role in the postrevolutionary period, said in a communique Tuesday that the situation is "steadily normalizing without any inconvenience."

NEWS CENSORED

Soviet Chief To Visit India

MOSCOW (AP)—Soviet Premier Nikolai Bulganin pledged Tuesday he will do everything possible to lower international tension and consolidate confidence among nations at the forthcoming Big Four conference.

He made the pledge before 100,000 cheering persons gathered in flag-bedecked Dynamo Stadium to honor India's Prime Minister Nehru. Nehru announced earlier that Bulganin had accepted an invitation from him to visit India.

Nehru stood beside Bulganin as the Soviet premier spoke. Communist Party Boss Nikita S. Krushchev, Deputy Premier Georgi Malenkov, First Deputy Premier Lazar Kaganovich and other Soviet leaders also were there.

The stadium's playing field was filled with disciplined ranks of flag-carrying Moscow athletes in bright-colored running suits. They led the applause.

The India leader said no date has been set for the visit, but that it is usual for foreigners to visit India in the winter. The implication was that Bulganin would not make the trip this summer.

Nehru made the announcement at a news conference in the Spiridonovka Palace immediately after talking with Bulganin in the Kremlin.

He went from the news conference to the mass rally in the Dynamo Stadium, where the Soviet citizens heard the first public address made in Moscow by a non-Communist statesman since the 1917 revolution.

Freighters Warned

HONG KONG—Chinese Nationalist gunboats intercepted two British freighters off Red China's coast Tuesday and warned them not to head into the Red port of Tientsin, radio messages from Hong Kong said.

The two ships, identified as freighters, were the 251,000-ton Melikoff and the 10,000-ton...

Detroit Dam Claims Four; 2 Recovered

SALEM (AP)—The bodies of a father and son, who were with two other persons in a car that plunged into Detroit Reservoir, were discovered Tuesday, state police headquarters announced.

The bodies were found outside the car in 20 to 30 feet of water. The recovered bodies were those of James A. Jennings, 41, a state highway department employee, and his son, Leo, 16.

Still missing was another son, Richard, 14, and their friend, John F. Wallace, 17. All four were from Detroit.

An oil slick led to grapplers locating the car about 75 feet off shore in 185 feet of water. Rough surface water, though, caused a halt at noon Tuesday in efforts to raise it.

A try will be made early Wednesday, using a tug and winch to get it close to shore.

The search began Monday when a highway worker noticed a broken guard rail. State police and workers at Detroit Dam soon began dragging operations.

The four had not been seen since Saturday night when they left their homes at Detroit to go to a theater at Mill City.

The broken guard rail was on the North Santiam Highway about 1 1/2 miles east of the dam. A license plate belonging to Jennings' car, headlights and other car parts were found nearby.

It was believed that Jennings' car plunged through the fence and crashed down a 175-foot cliff. The lake deepens from 40 feet near shore to 250 feet a short distance out.

Jennings' wife is in the state tuberculosis hospital. They have a 10-year-old daughter.

Mrs. Hobby Criticized For 'Abandoning' Aide

WASHINGTON (AP)—Sen. Neuberger (D-Ore) told the Senate Tuesday that Secretary of Welfare Hobby seeks to shift to a subordinate the responsibility for "stress and trouble" over the polio vaccine.

He referred to Mrs. Hobby's statement Monday night that federal law puts the responsibility for actions as to the vaccine on Surgeon General Leonard A. Scheele.

Neuberger said he thinks this demonstrates the Eisenhower administration is "directly in need of the quality of loyalty to subordinates."

Neuberger said he would counsel both Mr. Dulles and Mr. Hobby that there are higher rewards in life than to remain seats of power and authority. To have measured up fully to the demands of being a courageous and indomitable human being is something to be desired.

One can only imagine what such deserts as these in two great departments must do to employ morale in the federal service.

NO SPECIFIC INCIDENT Neuberger did not link his statements as to Dulles to any specific matters. However, there have been contentions by Democrats in the past that Dulles did not stand by subordinates who came under fire.

Mrs. Hobby said Monday night that she could not have acted any differently than she did in the vaccine situation because the law puts responsibility on Scheele. In a radio interview, Mrs. Hobby emphasized that she was not dissatisfied with Scheele's actions.

OTHERS COUNSEL "We have seen the secretary of state abandon his subordinates in times of stress and trouble," he said. "Now we see the secretary of health, education and welfare laying full blame and responsibility on a subordinate in a time of similar stress or perhaps greater stress and trouble."

He would counsel both Mr. Dulles and Mr. Hobby that there are higher rewards in life than to remain seats of power and authority. To have measured up fully to the demands of being a courageous and indomitable human being is something to be desired.

One can only imagine what such deserts as these in two great departments must do to employ morale in the federal service.
