

Senators Question Television Official

WASHINGTON (AP)—A Vermont television man who has acknowledged brief membership in the Communist Party was among witnesses called Wednesday by the Senate internal security subcommittee.

He is Charles Lewis, public affairs director of WCAX-TV in Burlington, Vt., who has said he joined the Communist party in 1937 and "quit two or three months later because I had my nose full."

Jury Returns Death Verdict

TACOMA (AP)—Convicted late Tuesday night of first degree murder for the samurai sword slaying of an aged motel operator last March 21, Harvey John Collins has been ordered hanged for the crime.

A Superior Court jury returned the verdict and ordered the death penalty shortly before 10 p.m., 29 hours after receiving the case and five hours after asking for additional instructions.

Collins, a 29-year-old decorated Marine veteran of World War II, hacked Andrew Stolen, 74, to death and critically injured Mrs. Stolen while robbing the elderly operators of the motel near Tacoma.

He had pleaded innocent by reason of insanity and contended his actions were the result of battle neurosis after action on Iwo Jima.

The verdict was received unsmilingly after Collins' jaunty entry into the courtroom, marked by cheerful greetings to relatives and acquaintances seated there.

20 OTHERS MENTIONED

One of these was Lewis. Two others described by Burdett as former employees of the Brooklyn Eagle whom he had known as fellow members of a Communist unit were Melvin Barnett and David Gordon. Both were listed as witnesses Wednesday. Barnett has been described as a copy editor on the New York Times and Gordon as a Reporter for the New York Daily News.

Also called to testify was Ira

Authorities Clear Vaccine Supplies

WASHINGTON (AP)—The government has released enough Salk vaccine for another 720,000 anti-polio shots.

The Public Health Service action Tuesday brought the clearance of vaccine supplies in less than a week to over one million cubic centimeters. Last Friday, the government freed 300,000 units. One c.c. of vaccine is used in a single antipolio shot.

But even with the release of the 720,000 c.c.'s of vaccine made by Eli Lilly & Co., Indianapolis, the total falls far short of the six million shots the National Foundation for Infantile Paralysis said on June 24 it would need to complete the free 2-shot inoculation of first and second-grade children.

10 Guards Quit

WALLA WALLA (AP)—The number of guards at the Washington State penitentiary who have resigned in the wake of last week's riot was reported to have risen to 10 Wednesday.
